#### Estimates Receivable.

Messrs. Lord & Hewlett, 16 East 23d st, are now taking estimates on the general contract for the new Hall of Records and new wing to Supreme Court House at White Plains, N. Y.

7TH AV.—Joel Marks, 198 Broadway, owner, and John C. Watson, architect, will take figures in about 10 days for store fronts, plumbing, electric fixtures, etc., to Nos. 2308-10-12 7th av.

107TH ST.—Frederick C. Browne, 143 West 125th st, is taking figures on the 4-sty garage, 75x100, which the Atlas Motor Co., 87 Thomas st, will build on the south side of 107th st, 100 ft west of Columbus av.

29TH ST.—Julius Kastner, 1135 Broadway, will be ready for figures, on separate contract, about May 15, for a 5-sty fireproof brick and steel cold storage building, 50x100 ft, for H. Koehlen, on the north side of 29th st, 125 ft west of 1st av.

#### Bids Opened.

Bids were received April 24 for electrical conduit in Owasco st, Auburn, N. Y. Barber Asphalt Co., 114 Liberty st, New York, \$10,404; Brayer Bros., \$12,777; Abbott-Gamble Co., 32 Broadway, New York, \$18,459; Jeremiah Quill, \$11,352; Warner-Quinlan Asphalt Co., 42 Broadway, New York, \$11,024. Contract for paving was let to Brayer Bros. at \$35,506. A. Walter Ackerman is City Engineer.

## BUILDING NOTES

It will soon be understood that the Anti-Smoke League are determined men of wealth and influence. Then public rights will be better respected.

Prof. Woolson conducted a fire test of a plaster block partition constructed by H. W. Bell, at the Columbia Fire Testing Station, on May 9, under the supervision of the Bureau of Buildings.

Pretty good joke on the Edison crowd, getting convicted of maintaining a smoke nuisance, seeing that they are such high advocates of a "smokeless city," with all the machinery run by electricity.

E. Litchfield, of the firm of Lord & Hewlett, architects, has a

146TH ST.—The United Electric, Light and Power Co., 1170 Broadway, is taking estimates from plans by its engineers for a brick and steel fireproof, 4-sty transformer station, to be situated on West 146th st, between Amsterdam av and Broadway.

PALMETTO ST.—Walter B. Wills, 32 Ditmars st, Brooklyn, is taking figures on the general contract for a 2-sty garage, 75x100 ft, for W. F. Blaisdell, 1075 Bushwick av, to be erected on the south side of Palmetto st, 100 ft west of Bushwick av, Brooklyn. No contract let.

49TH ST.—Hill & Stout, 1123 Broadway, have plans ready for the 8-sty warehouse and loft building, 80x90 ft., which Edmund Coffin, 34 Pine st, will erect at Nos. 244 to 250 West 49th st, at a cost of \$125,000. Four buildings will be demolished. Slag roof, brick, iron, steam heat, etc.

21ST ST.—Contracts have not been awarded yet for the 11-sty loft building, 25x85 ft, which John McCarthy, 727 Broadway, will build at 40 East 21st st, from plans by Francis H. Pfluger, 32 Union sq, to cost \$80,000. One building will be demolished, limestone and brick, tile coping, steam heat, etc.

4TH AV.—B. W. Berger & Son, Bible House, is taking bids for \$40,000 worth of changes to the Putnam House, northeast corner of 4th av and 26th st. Interior will be remodeled; 57 sleeping rooms, 16 baths, telephones, steam heating, etc. Samuel Glantz, 6th av, southeast corner 43d st, is the lessee. Roosevelt estate, 69 Wall st, owner.

plan for beautifying the Williamsburg Plaza of the Williamsburg Bridge. The scheme is soon to be submitted to Bridge Commissioner Stevenson.

Oh, old New York will get all fixed some day. The New York Central road is not only going to depress its tracks on 11th av, as ordered by the Legislature, but will build a roof of steel and concrete over them and use electricity.

Announcement is made by the Engineering of Light and Illumination Co. of the opening of an office at 25 Broad st for the transaction of a general contracting and engineering business relating to the use of artificial lights.

Neumann & Even, architectural sculptors, announce that they will move to their new building, 329 East 47th st. This building has been specially constructed to meet their requirements, and with increased facilities they are prepared to execute all work on a large scale. Telephone, 3909—38th.

At a meeting of the Concrete Association of New York, at the Hotel Astor, on Wednesday, May 9, Mr. Ross F. Tucker, president of the association, read a paper on "Roman Concrete Construction," and Mr. Albert Moyer, of the Vulcanite Portland Cement Co., read a paper on the "Manufacture of Portland Cement."

Plans are being prepared in Ludlow & Valentine's office for a Chapter House for the Delta Tau Delta Fraternity of Stevens Institute, Hoboken, N. J. The building is to be three stories in height and constructed of Harvard brick with gray face brick

and Indiana limestone trimmings. The interior will be finished in oak and white wood.

Work has been begun in earnest in clearing away the old Coal and Iron Exchange building, southeast corner of Cortlandt and Church sts. The site forms part of the plot on which the City Investing Co. will build its 25-story skyscraper office building. Francis H. Kimball, 71 Broadway, is architect. No contracts for building have yet been issued. (See issue Feb. 10, 1906.)

C. S. Goss & Co., dealers in masons' building materials, with yards at 51st st and 11th av, this city, have sold their Brooklyn yards to the American Building Supply Co. M. Geier, the former manager for C. S. Goss & Co., will remain with the new firm. C. S. Goss & Co. inform us that their reason for disposing of the Brooklyn yard was their inability to give it their personal attention.

The new Prentice excise law requires that within thirty days after it goes into effect the Superintendent of Buildings shall turn in reports to the Excise Department of the State regarding all hotels in his borough. The period ended one day this week with the inspection work incomplete, as the Bureau could not do the impossible. Supt. Murphy says he will carry forward the inspections as rapidly as possible.

After being under construction for four years, the giant Hotel Belmont opened this week with four hundred guests. Built of necessity, rather than of design, by the subway interests, as part of a bargain for right of way and easement, the house promises to be fashionable and successful. The furnishings are very costly and the mechanical equipment the best that can be devised. Mahogany doors and furniture and rose

colored marble columns and wainscoting give the keynotes of color. Dark red velvet curtains are in the windows, and the rugs are of the same color. Otherwise the woodwork in the upper part of the house is a delicate drab. B. L. M. Bates, the proprietor of the Hotel Belmont, also conducts the Murray Hill Hotel, a block away. He is also associated with his father, William Bates, in the management of the Everett House.

## The Movement to South Brooklyn.

Mr. F. Hall, of 480 1/2 5th av, a leading agent and broker of South Brooklyn, remarked this week that "there is perceivable a constant vigilance on the part of home seekers aware of the future possibilities of South Brooklyn and Bay Ridge, and though there has been a most decided rise in prices, here as elsewhere in the greater city, there has been no apparent abatement in the demand. There is more of a demand for two than one family houses. This office predicts a very promising future for South Brooklyn, particularly in the outlying districts."

One of the largest investors in Queens and Nassau suburban tracts is former Borough President Joseph Cassidy, of Queens. He is said to have purchased more than \$250,000 worth of realty since his retirement from office at the end of last year. Before the present demand attracted attention he also bought heavily. He has just purchased the Watson House hotel property at Babylon, which was sold under foreclosure. The price paid was only \$27,000, which is reckoned a great bargain. The hotel is one of the best known summer places on Long Island,

Messrs. Parish, Fisher & Co. will sell at auction in the Real Estate Salesroom, 14-16 Vesey st, on May 29, the Dickinson estate, consisting of 369 lots situated on Jerome av, Mosholu Parkway and vicinity. Title to both these properties will be insured free to purchasers. The location is especially fine. Maps and full particulars of all these lots may be obtained from the auctioneers at 149 Broadway. For further particulars see adv.

The auction sale of the property on the Eastern Boulevard, formerly owned by the Sisters of St. Vincent de Paul, will be conducted by Auctioneer John L. Parish, of Parish, Fisher & Co., of 149 Broadway, in the Real Estate Salesroom, 14 and 16 Vesey st, on Tuesday, May 22. The property—opposite the Westchester Country Club, near Pelham Bay Park and within a few minutes' walk of the water front—is, so far as its surrounding is concerned, in one of the most attractive parts of the Bronx. The land is level, slightly above grade, and with the work of development now being carried forward by the owners will be practically ready for building. Several hundred laborers are now engaged in opening and grading 6,000 ft of streets and constructing sewers in many of them. To what extent property in this section is commanding attention was shown in the recent sale of the St. Joseph's Orphan Asylum tract.

## REAL ESTATE NOTES

Foreclosure sales are few, but if the annual mortgage tax were not going off, many families would be giving up the struggle to keep their dwellings.

Orders are issuing to the New York Central Railroad to remove their tracks from Jerome avenue. This refers to the spur to the former Jerome Park race track.

Shaw & Co. sold for Mrs. Blakemore the Sutton homestead, on Croton av, Ossining, N. Y., to one of their clients, who intends to occupy the premises after improving same.

The Taxpayers' Alliance of The Bronx has adopted resolutions declaring for the appointment of a Bronx citizen on the Rapid Transit Commission, and naming Adolph C. Hottenroth.

The report of a sale by Lowenstein, Papae & Co. in our last issue of 58-60 East 116th st was an error, and should have read 58-60 East 106th st.

Never so earnest as now was the search for home sites by New Yorkers. The unusual demand makes prices high, and the high prices, in turn, have a great deal to do with making the demand.

The annual outing and dinner of the House and Real Estate Owners' Association is set for June 21 at Donnelly's Grove, College Point. A regular meeting was held last evening in Turn Hall, 85th street and Lexington avenue.

A high-class restricted residential section is to arise from the old Morris Park race course, the title to the remaining three hundred acres of which passed this week to the Fidelity Development Co., a corporation capitalized at \$4,000,000.

Mr. W. H. Goldy, of 982 Flatbush av, says that advancing prices have had the effect of increasing the demand for houses in Flatbush. He notes particularly a good call for two-family brick houses, as well as for their frame houses, of which he sold 125 last year.

Small buyers seem to be hungry for suburban lots which can be purchased at from 5 to 10 per cent down, but they are wisely discriminating in insisting on having property near the centers. Some operators have cut up property outside of the paths of travel and find it very hard to dispose of.

Close to 12,000 deeds and mortgages have been filed in the Queens County Clerk's office since the beginning of the year. While the sales have for the most part been to purchasers of small plots, and nearly all have been of unimproved land, the transactions represent more than \$2,000,000.

The legislative bill giving the aldermanic board power to "legalize" certain encroachments over the building line, being clearly unconstitutional in view of recent decisions by the highest courts, is not likely to receive the Mayor's approval. This is the verdict upon this week's hearing on the measure.

Tuesday's sales in the Vesey Street Exchange were especially numerous and successful. They included several large plots on upper Riverside drive, lots on Westchester and Tremont avenues, as well as a large number of flats and tenement properties in various sections. Prices for lots on Westchester avenue (running through to Tremont avenue) averaged about \$3,500.

Howard C. Pyle & Co. say that not in a single instance have buyers defaulted in taking title to properties recently bought in the Jamaica section. There was considerable apprehension as May first drew near regarding these titles, and many pessimistically inclined people have pointed out that the boom in Queens County is simply a speculation, and that there would be many who would default when it came to taking title.

In relation to the revision of the street system of the Kingsbridge section, in connection with depressing the Harlem Railroad tracks and changing the route of the Central Railroad, the local board has approved the map of the revision as a whole, and the widening of Kingsbridge avenue in particular, with the understanding that, as in the case of Olin avenue and Williamsbridge, 70 per cent of the cost of the widening will be assumed by the city. Part of the thoroughfare in question will be needed for a bridge approach. The petition for grading 210th street also stands approved.

The lot market is coming around again for its share of public favor. Mr. Kennelly had a very successful auction on Wednesday, in the Lowerre section of Yonkers, in spite of a stormy day. Prices swung between nine and twenty-two hundred dollars. Mr. J. Romaine Brown bought four on South Broadway for \$2,200 each, besides a number on other streets. Property in this vicinity will come in for the subway extension privileges, the anticipated effect of which will soon begin to be very prominent. (Reference is made to the extension which the citizens of Yonkers are intending to build from the city line to Getty sq.) Lots in the Bronx are in hands almost too strong for the good of the general public, and a general loosening up would benefit everybody. On Tuesday Mr. Day sold from the block high-class property on upper Riverside Drive, for which he obtained good values.

## Mortgage Tax Meeting.

A final manifestation of public opinion upon the Mortgage Tax, representative of the whole State, was made at the Real Estate Exchange, 14-16 Vesey st, on Monday afternoon, under the auspices of the Allied Real Estate Association. Edmund L. Baylies was in the chair, and among those who spoke were Senators Albert R. Page and Thomas F. Grady, Assemblyman J. M. Wainwright and Judge Wm. N. Cohen. Resolutions were passed reciting that the present Mortgage Tax law has resulted in general dissatisfaction, and urging the Governor to sign the Page bill on the ground that the present bill has failed of its purpose of imposing the tax upon lenders of money; that therefore the borrower is doubly taxed, and that the law has imposed such duties on lenders on mortgage securities that conservative lenders will not invest.

Senator Page was properly received with great applause, appreciative of his high service in the Legislature; and the reception accorded Senator Grady and Assemblyman Wainwright was also pronounced. The whole effect of the meeting was to testify to the overwhelming desire of the people that the Governor should append his signature.

Senator Grady said in his address: "From my knowledge of the Governor, whose personal friendship I am proud to enjoy, I feel assured that he will sign this bill. Years ago, when he sat as Senator, he voted for a recording tax bill, and I don't believe he is the kind of man to reverse himself, for he has a conscientious desire to do his duty as he understands it for the benefit of the whole State."

Judge Cohen marshalled the arguments against the bill in this brief paragraph:

"In substituting a recording tax for the annual Mortgage Tax an effort has been made to right a grievous wrong, because (a) already the real estate bears out of all proportion its share of the tax burdens; (b) because the Mortgage Tax law was so cumbersome that it drove off mortgage investments by cautious capitalists and invited the speculative and grasping; (c) it unduly oppressed tenants; (d) it hindered the natural development of our city and State."

## One Way of Getting Rapid Transit.

Mr. Wm. G. Morrissey, the oldest established real estate broker of Bath Beach, where he first started business in 1879, and a member of the Taxpayers and Rentpayers' Association of the Thirtieth and Thirty-first Wards, Brooklyn, who has seen the lower end of the Thirtieth Ward rise from a popular summer resort to a flourishing residential centre, is an advocate of the mono-rail system of rapid transit.

"To my mind," says Mr. Morrissey, "what the people want is a system of real rapid transit that they can reasonably be sure of obtaining within a short space of time if they decide to adopt it. A subway is a very desirable thing and would, no doubt, give us rapid transit. No one objects to a subway; in fact, we are all in favor of it. But the question is how soon can we get it? This talk of getting a subway within eighteen months is only calculated to mislead and deceive. From the opinion of experts who are in a position to know, a subway along New Utrecht av is not likely to be realized within six or seven years, if then. According to the evidence of engineers, it will take at least four years to construct and equip the subway. Then there is the all-important question as to whether bids will be made at all on the proposed route.

"An elevated system such as is in use in parts of the borough now could be built in shorter time and at less cost, but this the residents will not stand for because of the unsightly structure and its obstruction to light.

"The best and most practical method of speedy transit yet introduced is unquestionably the mono-rail system. Here we have a system that is at once the most rapid, far and away, of any other—one that will give a speed of 110 miles an hour with absolute safety. From Flatbush av to Bath Beach and Coney Island via New Utrecht av or some other route, a mono-rail system of transit can be installed within ONE YEAR. It can be built at ONE-FOURTH THE COST OF A SUBWAY.

"This mono-rail system must not be confounded with the old bicycle railway at Brighton Beach. There is no more comparison between them than between chalk and cheese. The monorail system is in use in Ireland and in Belgium, and after the most severe tests has been found absolutely practical. An accident has never happened on it. At the present time the mono-rail system is being constructed between Manchester and Liverpool, in England, a distance of thirty-four and a half miles. The cars are scheduled to travel the distance in twenty minutes.

"Although the mono-rail is an elevated system, it is not an objectionable or unsightly one. It is clean. It is designed with an eye to artistic effect and it only takes up four feet of the roadway.

"In advocating this system and asking people to consider it and investigate it to their own satisfaction, I have no axes to grind. All I desire, and all I think the people at large desire, is that system of comfortable rapid transit which we can readily obtain within the shortest period of time and at the least cost, and at a popular fare, and I care not who gives it to us so long as we get it."

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows;

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2;482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

May 3, 4, 5, 7, 8, 9 and 10.

## JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (f) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments. The Judgments filed against corporations, etc., will be found at the end of the list.

# Telephone Duplication

## Statement of New York Telephone Company

Asked by a member of the General Laws Committee of the Assembly of New York, "If it is the desire of your Company to serve the public interest, why should you oppose a competing Company?" an officer of the New York Telephone Company, on April 4, 1906, said:

"We have no desire to assume an attitude of unconcern, but without regard to our own interest, I shall try to answer your question as you have put it. Even where real grievances exist a second telephone company is the most wasteful and ineffective regulator that the public can resort to. The advantages claimed for competition are a larger system, better service, fairer rates.

"In the cities of the United States having 150,000 population or more **the development is less where two companies operate than it is in such cities where only one company operates.** The cities which have **the best service at the least aggregate cost to the public** are unquestionably those where there is a unified service rendered by one company. Not one of the world's great cities has a **larger system** or a **more efficient service** than New York, or has given more convincing proof of the **reasonableness of its rates**, and its desire to satisfy its patrons, and deal fairly with the public.

"In no other business is so-called competition so burdensome and full of annoyance to the public. **The telephone is intended to bring people together. Two telephone systems in the same district divide them into separate groups.** Competition does not increase but lessens the usefulness of the facility. Unlike gas, electric light, water, or any other commodity, it is of the utmost importance that one secure his supply of telephone service from the same source as his neighbors and business correspondents. In the supply of these other commodities unification is highly beneficial; in the supply of telephone service it is absolutely essential. Where there are two companies the patron can not dispense with the service of one company by taking that of the other. **He must take both and submit to double charges and many vexations, or secure only a partial service.**

"Therefore, there is every reason from the standpoint of public interest, for opposing in every proper way the establishment of a second company in New York City."

Harder than yours have been many of the light-problems we have solved by the Luxfer System. We can bring daylight into basement, back room, court or any other place where you want it. Give us a chance to prove it. Telephone 3276 Gramercy.

WALL STREET seems to have settled down to the conviction that for the time being the season for a bull market has passed. Many happenings of the last fortnight, including the revelation of the tragic death of the private secretary of Henry H. Rogers, tend to show that all had been arranged for a bull campaign when interrupted by what may be designated as the greatest catastrophe of modern times, the San Francisco calamity. The unparalleled decline that followed, measured by the tremendous shrinkage in values in such a short space of time, has taken the spirit out of the street, and a dull, hard summer is generally looked for. There are some erstwhile shrewd operators, however, who believe that cheap money and cumulative bull conditions if steadily fortified by improving crop prospects will cause a hardening market which, under covering of a stiff short interest might any week burst into a bull flame. Such a market might well be set in motion by sporadic advances in stocks now long overdue and selling much below their value. Half a dozen such advances following each other would cause the street to examine the list for other winners and soon all would be in motion. Such a stock for example, might be found in the preferred shares of the Toledo, St. Louis and Western railroad. In April, 1905, they sold on the street at 65 and in the recent break as low as 48, notwithstanding that in the interval the net surplus has exactly doubled. The statement of gross and net earnings recently published for the eight months of the present fiscal year indicated about four million, two hundred thousand dollars for the year that will end June 30, 1906, and the full dividend, earned on the preferred and a balance for the common stock. Should the road be taken over by one of the great trunk systems under a guarantee as contemplated, the preferred stock should rule as high as Mobile & Ohio 4% stock, guaranteed by the Southern road, now quoted at 98 to 100. Meanwhile the beginning of dividend payments this year should result in establishing a price on the Stock Exchange of say 75 to 85 for the preferred stock, and that indeed is the expectation.

THE ARGUMENT for Toledo, St. Louis and Western preferred may also be said to apply in a modified way to the Iowa Central preferred and Wisconsin Central preferred shares. The earnings of both these roads are increasing very fast and the shares should be selling at higher prices, and indeed did sell at higher prices prior to 1901. It certainly seems as between the high-priced railroad shares on the one hand and what may be called the inflated metal shares, at least of some issues, on the other, that the safest and most profitable operations will be found in buying the medium-priced railroad shares now unduly depressed. This subject has been referred to several times in these columns. Railroad shares like Reading, St. Paul, Union Pacific, Pennsylvania, Reading, Southern Pacific and Missouri Pacific will of course have their ups and downs, but for the average operator there is not likely to be the prospective margin of profit in them as in operations in some of the medium-priced issues mentioned. As to money, it is a remarkable fact that one of the most important banks in San Francisco announces that it now holds

in cash nearly 85 per cent. of its deposits. This is surely a striking proof of the sound monetary condition, not only of the Pacific Coast but of the country generally. There is no halt in the tide of prosperity. The government report shows that our imports and exports in April are the greatest on record. The prodigious sum of three thousand million dollars will probably be the total for the whole year.

BROADWAY between the Herald Square and Times Square has had little part in the improvements which have augmented values on the same side of town between Fourteenth and Thirty-fourth streets. The hotels Vendome, Marlborough, Normandie, and Saranac, remain as previously. The new Knickerbocker will replace the old St. Cloud. The five theatres, the Knickerbocker, Casino, Empire, Broadway and Herald Square are, none of them, new and many of the buildings between Thirty-fourth and Forty-second streets show minor alterations so far as the stores or offices in them are concerned, but not otherwise. In the territory on Sixth avenue between Thirty-fourth and Forty-second streets, a district long disregarded by real estate speculators, however, there are beginning to be numerous changes. Some of the old brownstone buildings along this thoroughfare are being altered; others are being replaced by more modern structures. The district is one which would seem to lend itself naturally to improvement along present real estate lines. The completion of the new public library on Fifth avenue between Fortieth and Forty-second streets will certainly add to the attractions of Bryant square neighborhood, and the construction of business buildings on Fifth avenue between Thirty-fourth and Forty-second streets is not likely to leave the parallel part of Sixth avenue without some like demand. The New York Central improvements for the Forty-second street terminal must add to the business of that station, and the opening of the Hotel Belmont adds to the importance of Forty-second street as a thoroughfare. Those portions of the west side which have thus far resisted longest any improvement seem to be the ones most likely to be affected by the changes now going forward.

A SECTION of New York which has grown slowly, getting little of the general impetus towards improvement, is Fourth Avenue between Fourteenth and Forty-second Streets, and the territory tributary to it. Values in this section of New York between Union Square and the Grand Central Depot languished for many years. There were isolated cases of improvement, new buildings here and there, but no general advance. The opening of the Subway was counted upon to realize the expectations of many for a boom in this section of Manhattan, and certainly no section of the borough has been so truly favored by the Subway in the matter of stations, for within less than a mile and a half there are two express stations, one at Fourteenth and one at Forty-second, and four local stations, at Eighteenth, Twenty-third, Twenty-eighth and Thirty-third Streets respectively. There are cross-town lines of cars at Fourteenth (now connecting with Brooklyn), Seventeenth and Eighteenth, Twenty-third, Twenty-eighth and Twenty-ninth, Thirty-fourth and Forty-second Streets, connecting with the whole upper West Side. But notwithstanding this, the Fourth Avenue section has remained substantially the same as it was twenty years ago, and the intervening streets have shown but little advance. A comprehensive development of the terminal facilities of the New York Central Railroad at Forty-second Street and their connection with the Pennsylvania terminal on the West Side by subway seem likely to bring about a change frequently promised but always postponed in the value of Fourth Avenue realty and the value of the large territory tributary to it between Madison and Lexington Avenues. It is a section of New York which has grown perhaps less than any other section having like advantages north of the line of Fourteenth Street.

SOME strong influences have entered the Hudson River brick manufacturing field within two years, since it has become fairly profitable, and more unanimity than has ever prevailed in the manufacturers' attitude toward this market is likely to be observed. But for this there might be an expectation of another long period of shattered quotations for common brick, as a consequence of the swelling output, notwithstanding the annually expanding market. In former times the brick manufacturing business on the Hudson River was carried on almost exclusively by families of social and financial prominence in their communities. Along with paper-making, milling, weaving and tanning, brick-making was one of the earliest forms of manufacturing in the valley. With the prospect that in the future the requirements of New York will rise nearly to an equality with the supply from up the Hudson at least, there is

a prophecy that brick manufacturing will again attract strong business interests, which will keep it at or above par with other callings in the future. At present prices brick are coming to New York from as far South as Baltimore and as far East as Hartford. It would pay to ship them from Europe at \$11.50 per M. With such hammering as quotations are certain to receive from the new brick, they are bound to fall, but with the spirit of coordination strongly animating the Hudson River producers, it is not thought the declension will be to levels anywhere near those which demoralized the trade previous to 1903.

### Regulations for Perforated Pipes.

IN LOWEST STORIES OF FACTORIES AND STORES.—A NEW BURDEN ON OWNERS OF BUILDINGS.

**M**ANY owners of store and factory properties have been recently surprised to receive notice from the Bureau of Violations in the Fire Department calling for a compliance with regulations for perforated pipes in cellars and sub-cellars issued by the Fire Department under date of March 1, and intended to apply to all buildings of the class mentioned irrespective of their heights. The regulations are as follows:

"New York, March 1, 1906.—The following regulations for perforated pipe work in cellars and sub-cellars, required under the provisions of section 762, chapter 378, Laws 1897, as amended, and section 102 of the Building Code, are hereby approved and established:

"All perforated pipes are to be of wrought iron or steel, and capable of withstanding a pressure of 300 pounds to the square inch.

"They shall be suspended with proper hangers, not less than 6 inches below the ceiling and parallel thereto, running full depth of building and placed 12½ feet apart on centres and 6 feet from side walls, to be securely fastened and properly braced to withstand vibration.

"Pipe shall be 1½ inches internal diameter perforated with 1-16 inch holes; holes to be on the quarters 2 inches apart longitudinally and to be staggered, making 24 holes to the running foot of pipe. Holes must be drilled, not punched.

"These 1½-inch pipes to be connected with a feed pipe 4 inches internal diameter, placed close to and parallel to front or side walls of building and connected by and with a 4-inch pipe terminating outside of said wall in a 3-inch Siamese connection, to be fitted with proper clapper valve or valves. One Siamese connection to furnish water to no more than a total of 400 feet of perforated pipe. No single line to be longer than 100 feet.

"Sub-cellars require separate equipment. Cast-iron fittings must not be used. All unnecessary bends will be avoided, and where needed such bends or curves to be easy and of a radius not less than six times the diameter of the pipe. A suitable iron plate on outside of building, with raised letters, must be fastened to the wall, or other approved place near cellar connection, to read: 'TO PERFORATED PIPES IN CELLAR.' Sign for sub-cellar to read: 'TO PERFORATED PIPES IN SUB-CELLAR.'

"Drawings and duplicate, consisting of plans and sections drawn to ¼-inch scale, showing proposed location of pipe, with proper written description, must be submitted for approval to the Bureau of Violations and Auxiliary Fire Appliances, where information as to conditions not covered by above specifications will be furnished on application. Office for Manhattan, The Bronx and Richmond at Nos. 157 and 159 East Sixty-seventh street, Manhattan. Office for Brooklyn and Queens at Nos. 365 and 367 Jay street, Brooklyn.

"JOHN H. O'BRIEN,  
"Fire Commissioner."

The authority to make such regulations is assumed by the Fire Department to be contained in Section 762 of the amended Greater New York Charter of 1901 and in Section 102 of the Building Code of 1899. Section 762 of the Charter of 1897 was continued in force by the amended Charter of 1901 "until changed" by the Board of Aldermen. That section provides:

"The owners and proprietors of all manufactories, hotels, tenement-houses, office buildings, boarding and lodging houses, warehouses, store and offices, theatres and music halls, and the authorities or persons having charge of all hospitals and asylums, and of the public schools and other public buildings, churches and other places where large numbers of persons are congregated for purposes of worship, instruction or amusement, shall provide such means of communicating alarms of fire, accident or danger, to the police and fire departments, respectively, as the fire commissioner or police board may direct, and shall also provide such fire hose, fire extinguishers, buckets, axes, fire hooks, fire doors and other means of preventing and extinguishing fires as said fire commissioner may direct."

Section 102 of the Building Code prescribes in its first paragraph that "In every building now erected, unless already provided with a three-inch or larger vertical pipe, which exceeds one hundred feet in height and in every building hereafter to be erected exceeding eighty-five feet in height, and

when any such building does not exceed one hundred and fifty feet in height it shall be provided with a four-inch stand pipe, running from cellar to roof, with one two-way three-inch Siamese connection to be placed on street above the curb level, and with one two-and-on-half-inch outlet, with hose attached thereto on each floor, placed as near the stairs as practicable." And in its last paragraph that: "In such buildings as are used for business or manufacturing purposes there shall be provided, in connection with said standpipes, two-and-one-half-inch perforated iron pipes placed on and along the ceiling line of each floor below the first, \* \* \* \* or in lieu of such perforated pipes automatic sprinklers may be put in."

It is said that the words "in such buildings" make the requirement for perforated pipes in the lower stories applicable to all buildings that are used or occupied for business or manufacturing purposes irrespective of their height. On the other hand, it is claimed that there is no ambiguity in the language or meaning of the Building Code; that "in such buildings" means the buildings described in that particular Section, namely, buildings exceeding eighty-five feet in height. Whether the effort made to force perforated pipes in the thousands of buildings used for store and manufacturing purposes throughout the city will prove successful remains to be seen.

### Chief Engineer Miller Resigns.

Chief Rudolph P. Miller, of the Engineering and Construction Department of the Bureau of Buildings of the Borough of Manhattan, this week tendered his resignation to Superintendent Murphy, of the Bureau, to take effect June 1.

Mr. Miller was reared in this city, educated in its public schools and took his Bachelor's Degree at the College of the City of New York. He later continued his professional studies at the School of Mines of Columbia University, from which institution he was graduated as a civil engineer.

On December 19, 1895, he entered the service of the city in the Department of Buildings, as special inspector appointed by Superintendent Constable. After about one year he was trans-

RUDOLPH P. MILLER.

ferred to the plan-examining division, and with each change in administration was advanced, till the present position was reached, about five years ago. Of late years he has given special attention to reinforced concrete construction, and was the author of the first regulations promulgated in this country, which have been used as the basis for nearly all later regulations on the subject. In 1904 and 1905 he conducted for the Bureau of Buildings an investigation into the strength and properties of common clay brick. From this result, regulations were framed by the bureau, which are now in force, governing the testing and acceptance of new materials of construction. Familiarity with concrete construction, cement products, the testing of materials and the building law has made him eminent in his calling, and he has been much in demand among professional organizations as a lecturer on the topics. The arduous work of the position has too heavily taxed his health, so that by advice of his physician he leaves the bureau in which he has labored so conscientiously and with genuine pleasure. He is a member of the American Society of Civil Engineers, American Society for Testing Materials and the Municipal Engineers of New York. What business he will enter is indefinite, and will be until after a sufficiently long vacation has restored him to health.

# Bronx Needs More Streets and Sewers

They Would Add Millions to Land Values and Pay a Double Profit to the City.—Views of President Haffen.

**B**OROUGH PRESIDENT HAFFEN declares that the City of New York can make no more profitable investments than the expenditures required for public improvements in the Bronx. In this connection it is asserted by Bronx representatives that the annual payment by taxpayers for improvements completed have been almost equal to the estimated cost of the improvements authorized during the same period. During any one year, and, in fact, during the period from 1902 to 1905, the Bronx has paid the assessments for street improvements an amount well up to the cost of authorized improvements. It has also been said that "more than half of all the money annually collected comes from the Bronx, while in Brooklyn the moneys paid in during any one year are only about one-fourth the estimated cost of the authorized improvements." And in support of this general remark the following figures have been given out:

and apartment houses erected to accommodate the incoming population.

In a letter which Mr. Haffen has sent to the Board of Estimate he says: "I am aware of the claim that the city's approach to the constitutional debt limit makes it incumbent upon the Board of Estimate and Apportionment to limit its authorization of assessable improvements in all the boroughs to \$5,000,000 a year. But I am positive that a moment's consideration will make it clear that the authorization of improvements which constitute a lien on the property benefited does not come within the constitutional debt provision. The city incurs no liability in the ordinary sense by authorizing the construction of sewers or the grading, paving and regulating of streets. The cost of such improvements is paid by the benefited property owners and is a lien upon their property. All the city does is to advance such funds as may be needed pending the collection of the

In answer to the story which these figures tell, Secretary Haag, of the Board of Estimate, explains that the larger collections as compared to authorizations in the boroughs of Manhattan and the Bronx (old City of New York) is mainly due to the fact that assessments for local improvements instituted prior to consolidation in the old City of New York and the penalties thereon are, when collected, deposited to the credit of the City's "Street Improvement Fund," out of which fund all disbursements for these improvements since consolidation have been made, whereas, in the boroughs of Brooklyn, Queens and Richmond, the assessments for improvements of this description, instituted prior to consolidation, as collected, have been and will be applied to meet the cost thereof, and to the redemption of bonds issued for that purpose by the authorities in these boroughs, prior to consolidation.

However, great complaint is being made in the Bronx of the alleged slowness of the Board of Estimate in putting through important resolutions for grading, regulating and paving streets. It is argued that every authorization of a local improvement payable by assessment adds to the borrowing capacity of the city, besides largely augmenting the current tax receipts. For instance, during 1905 the Board of Estimate and Apportionment authorized Bronx street and sewer improvements amounting to \$2,097,200. There was a resultant increase of approximately one hundred million dollars (97,892,934) in the assessed valuation of the real estate of the borough. On a tax rate of \$1.50 this increase adds \$1,500,000 annually to the tax receipts of the city, while nearly \$10,000,000 is added to the borrowing capacity of the municipality.

As it is an incontrovertible fact that a city cannot grow beyond the limit of its sewer, water and street systems, speculative interests have a large stake in the question aside from residential necessities. As an example of the injury resulting from the failure to act on the more important resolutions long pending before the board, President Haffen calls attention to the proposed Unionport sewers. These sewers are as necessary in his opinion to the development and prosperity of the Unionport section of the borough as is the supply of water or the paving and lighting of the streets. The estimated cost of the sewers is \$2,500,000, all of which will be paid by assessment on the property within the zone benefited. He considers it a reasonable assumption, an assumption warranted by the history of all similar improvements in other parts of the borough, that within a year from the beginning of construction work on the sewer system, at least \$20,000,000 will be added to the assessed valuation of real estate in the Unionport section. This increase would be caused by the enhanced value of lots and land and the cost of dwellings

assessments. The city borrows the money advanced at a rate of interest not exceeding 4 per cent. per annum and receives 7 per cent. per annum on all payments which may be delayed. Can there be a more sound or safe financial transaction by the City of New York?"

## Fire Underwriters' Opinion on Concrete Construction.

In a report recently made by the Committee on Construction of Buildings (of which committee Mr. C. G. Smith, of the German-American, New York, is chairman), to the National Board of Fire Underwriters, on its Model Building Code, which was published one year ago, considerable space is devoted to the subject of concrete construction, and from this report we quote as follows:

"The National Board of Fire Underwriters, through the Committee on Construction of Buildings, has prepared during the past year a building code designed to secure uniform building laws throughout the country. Every effort has been employed to make this code as complete and comprehensive as possible, and the committee has been assisted in its work by experts of the highest authority in the art of building construction.

"We are pleased to be able to report that the code has met with general approval, especially of engineers, architects, builders and other practical people having to do with building construction, and it is gratifying to your committee that we have been informed of many cities and towns where it has been made the basis of a new building law or of an intelligent revision of existing ordinances. Our circular letter and subsequent correspondence resulted in a large number of replies which clearly manifest a wide interest in the subject and encourages us to believe that the action of the board cannot fail to result in future benefit to the interests of both fire insurance companies and the general public.

"Numerous inquiries regarding concrete construction by members of the board and others lead the committee to attempt a word by way of explanation:

"Cement is recognized all over the civilized world as one of the most valuable adjuncts in building operations. Its manufacture has assumed vast proportions in this country within a comparatively few years. In the construction of buildings, from cement and sand mixed being used for mortar in laying up stone and brick walls, or cement and sand and broken stone mixed being used as concrete for footings of walls and piers, the use of cement with other aggregates has enormously increased within the past fifteen or twenty years for floor filling

between steel beams, for partitions, and still more recently for outer walls.

"The great danger to be apprehended from the use of cement combined with other materials is its commercial mixture, and its use in freezing weather. With the best materials, good cement, clean, sharp sand of proper size sand grains, and small, clean, broken stone or gravel, comes the careless and improper mixture of the several parts, in the hurry of building operations, the mixing being done more frequently by unskilled labor than by machinery. In other cases where the mixture is cement, ashes, cinders and clinkers or other partially carbonized material, with possibly some sand, the ashes frequently containing refuse vegetable matter, and these aggregates, often being carelessly mixed, the result is an utterly unreliable product. Good and poor cement mixtures are alike affected in very cold weather by the free water in the mixture freezing before it becomes combined by crystallization in the process of hardening, or setting, as it is called; the disintegration being due to the expansive force of ice. In the use of concrete constructed walls, a variety of constructions have to be considered; solid concrete, hollow blocks of concrete where the voids or spaces are as great or greater than the solid material, concrete combined with wire cloth or bars, commonly termed reinforced concrete, many of such devices being patented, and involving serious questions as to the proper allowance of strength to be given to the iron and to the concrete when the two are united.

"It will be seen, therefore, that the task of formulating exact regulations for concrete construction is very difficult, if not impossible. The National Board Code provides for the proper use of cement combined with other materials as far as the same are known or have been tested by authorities, although such tests have not included the supreme test of time, long out-door exposure, or fire and water—or all of these combined. Nature's verdict is often different from man's. The quality of cement that shall be used in the construction of buildings, the mixture and kinds of materials in making mortar and concrete, its use and thickness for various purposes, including the filling of spaces between floor beams, are fully and properly set forth; for reinforced concrete or concrete-steel constructed buildings, the code contains elaborate requirements believed to correctly embody the best known practice of to-day for this branch of the art of building.

"The entire code needs to be carefully and constantly watched and bettered as future experience may, and undoubtedly will, teach, but perhaps in no particular is more care and attention demanded than in the matters relating to concrete construction and artificial mixtures. Your committee is of the opinion that until the merits of concrete construction are more firmly established it will be unwise to make any change in our code."

### Season's First Great Lot Sale.

The first of the season's great lot sales—that of the Sisters of Charity tract of 336 lots on the Eastern Boulevard—will take place on Tuesday in the Vesey Street Salesroom, at the stand of Parish, Fisher & Co. Opposite the Country Club's holdings, where are the estates of a score of wealthy people, within a few minutes' walk of the Sound Shore and Pelham Bay Park, with their manifold opportunities for recreation and sport, it is expected that these lots will appeal strongly to small buyers and home seekers, great numbers of whom are now interested in securing land in the neighborhoods which are naturally attractive and in which land values do not prohibit the erection of small dwellings.

Aside from its attractive situation, this property has been developed at large outlay, so that it will be available for immediate building. The streets have been opened and graded in accordance with the city maps and have been dedicated to public use, removing all possibility of future assessments on this score. Sidewalks have been laid and, in many of the streets, sewers built.

This entire section, viewed only as regards projects already under way or approved, is in a position to be benefited largely by transit improvements. Of the three subway routes recently adopted, it is believed that the Westchester av. extension to Pelham Bay Park will be the first to be begun. This route will have its terminus at the Eastern Boulevard and Pelham Parkway, while Waterbury av, which is an extension of Westchester av, intersects the Sisters of Charity tract. The six-tracking of the New Haven Road's Harlem River branch will also afford an additional means of quick transit to this region. Of immediate benefit to the neighborhood, moreover, is the fact that the Union Railway has secured a franchise and now has its application before the city authorities for the operation of a trolley line along Eastern Boulevard.

There is now considerable new building in the section and every tendency points to its development as a region of attractive homes. In the immediate vicinity are churches of all denominations and stores of all kinds. And in these days of inadequate school accommodations, with thousands of half-time pupils, it may be pointed out that on the Eastern Boulevard there is a public school which, the principal says, can accom-

modate a good many pupils. The terms of sale provide for the usual ten per cent. down and the balance in thirty days; or sixty-five per cent. of the purchase price may remain on mortgage for one, two or three years at five per cent. interest.

### Dwelling House Prospects on Washington Heights.

There are only two directions left in which the old town of Manhattan can expand. One is perpendicularly, and the other is northward over that elephantine ridge between the two rivers which is called Washington Heights. This section, having the market for new building acreage literally cornered, compels attention.

No circumstance in the future of New York is more certain than that the whole eminence, to the very tip end of the island, will be built over in the course of time not very long. Already the main army of construction has reached the end of the zone marked by 181st st. Between there and 168th st twenty-five large building operations are in course, each one for apartment houses. In all, since the first of January, plans have been filed for just about one hundred apartments on the Heights.

For years there was a hope that this beautiful and interesting quarter would be left for private dwellings mostly, and some streets were definitely restricted to that type of a home when they were opened; but the fate of the Heights has been finally and definitely settled this year—if it was not three years ago—for an apartment house region. Only two considerable private dwelling-house operations are in hand at the present time, and plans for only three other private dwellings have been filed since the first of the year. Not even Mount Washington will be saved, as the offers which were made two years ago by the syndicates which had bought some of the original estates have not been accepted.

There seems nothing to it now but apartment houses, not excepting Riverside Drive. In saying this it is not meant that the building improvements will be ordinary tenements. A generally high grade of housing is assured by the high values of land and the fact that millionaire syndicates have not been strong enough to resist the pressure for sites for multi-family houses. Investors cannot be expected to hold tracts open for bids of five thousand dollars when they can get twelve. Some of the finest apartments of the future will be found on Fort Washington road, Broadway and the shore road, in this part of the city, as a high grade population seems assured.

One of the neighborhoods restricted to private dwellings was the former Hamilton Grange property, including the streets between 140th and 145th, east of Amsterdam av. The two rows of private dwellings now being constructed on the Heights are in this tract. Mr. G. L. Lawrence is finishing twelve houses on the north side of 140th st, opposite the college, which he is selling for \$26,000 each. For the lots he paid \$11,000 each. A similar row has been started on the north side of 141st by the Picken Realty Company. If there could have been large restricted tracts on the Heights, houses built thereon to sell from fourteen to seventeen thousand dollars would have commanded a ready market. As things are houses do not readily sell for such prices in unrestricted streets.

One Hundred and Fifty-second st is an example of what is happening to unrestricted streets. Here was one of the best blocks on the Heights, between Broadway and Amsterdam av. Recently a row of 6-sty apartment houses has been erected on the south side of the street, to replace the old private mansions that stood there, and of the remaining houses, which are built of stone, two at least have been on the bargain counter. Lots in that street are now held at about thirteen or fourteen thousand dollars. When the dwellings were built the land was worth only five or six thousand dollars a lot.

With the present high cost of construction, taken with the high cost of land, builders claim that private dwelling-house construction, except on restricted blocks, has ceased to be profitable; nor is it any longer possible to put up houses in which apartments can be rented at from twelve to fifteen a month. Most of the new apartments were built for thirty-five to forty a month, but there is an increasing demand for housing at less cost. The opening of the subway stations at 168th and 181st streets has had a marked effect in encouraging building operations in their vicinity, so much so that fears of an overproduction of apartments are being expressed. Some brokers are confident that at the present rate an overproduction of high-grade apartments will be disclosed before the year ends. Notwithstanding, the increase in values and rentals heretofore reported from the Heights has been on the whole so far well maintained. It is said that the records show that fully ninety per cent. of the land on Washington Heights has been conveyed to new owners since 1904.

—San Francisco's new limit on the height of buildings in streets one hundred feet wide is the same as her old limit in poker—only the blue sky.

# THE REALM OF BUILDING

## Building Operations.

### Contract for 52d St. Loft Building.

52D ST.—Tucker & Vinton Co., 156 5th av, has just obtained the general contract to build for P. H. McNulty, 550 West 23d st, on the north side of 52d st, 125 ft. east of 11th av, a 10-sty light brick and stone, slag roof loft building, 50x90.5 ft., to cost \$100,000. William C. Lewis, 13 Astor pl, is architect. No sub-contract yet issued.

### Two-Family Houses for the Bronx and Heights.

Maximilian Zipkes, 147 4th av, has on his boards plans for fifty two-family houses, to be built in upper Bronx. Location and owner to be reported later. Also, plans for two 2-family houses to be built on Fordham Heights on a plot 34x85x69x92, to cost \$10,000, for Benoff & Levenson.

### Another Fifth Avenue Office Structure.

5TH AV.—Israels & Harder, 31 West 31st st, are preparing plans for a high-class 6-sty loft and office structure 25.5x155 ft, to be erected on Fifth av, northwest corner of 45th st, to cost \$130,000. Wm. C. Browning, 552 5th av, is the owner. James P. Silo, 366 5th av, will be the lessee. No building contract has been issued.

### Business Building for Bleecker Street.

BLEECKER ST.—J. L. Fogliasso, grocer, of No. 114 Macdougall st, has commissioned John Ph. Voelker, 979 3d av, to prepare plans for a 6-sty business building to be erected on a plot 57x75 ft, at Nos. 191 to 195 Bleecker st, adjoining the northwest corner of Macdougall st. Mr. Fogliasso states that he will occupy the structure. No building contract has yet been made for the work.

### Office Building for West 31st St.

31ST ST.—Ranald H. Macdonald & Co., of No. 5 West 31st st, have purchased a plot at No. 12 West 31st st, 28x100 ft., on which to erect a 12-sty high-class elevator office building. The structure will have exteriors of limestone brick and terra cotta and fine ornamental ironwork. The interior will contain electric elevators, steam heat, electric lights, marble, tile and hardwood finish. Macdonald & Co. will be the general contractors, receiving all estimates and issuing all sub-contracts. Chas. E. Birge, of No. 5 West 31st st, has been the company's architect in previous operations.

### No Architect Yet Appointed for Fine Arts Society Building.

No architect has yet been commissioned to prepare plans for the new Fine Arts Building, which the United Fine Arts Federation, which includes thirteen art societies, proposes to erect and establish in this city. It is reported that \$1,000,000 has already been subscribed, and the cost of financing such a building might be estimated approximately at \$3,000,000. The location has not yet been determined. Mr. John W. Alexander, representing the Society of American Artists, is chairman of the building committee, and Grosvenor Atterbury, of 20 West 43d st, is secretary. (See issue Jan 27, 1906.)

### Apartments, Flats and Tenements.

6TH ST.—Joseph Wolkenberg, 96 Av C, will build on north side of 6th st, 105.5 ft. east of Av C, a 6-sty flat, 44.11x77.10, to cost \$45,000. Bernstein & Bernstein, 24 East 23d st, are planning.

51ST ST.—On the south side of 51st st, 73 ft. east 1st av, J. Quartner, 67 West 125th st, will build two 6-sty 22-family flats, 36x87.5. Cost, \$73,000. C. B. Meyers, 1 Union sq, will make plans.

121ST ST.—Maximilian Zipkes, 147 4th av, is drawing plans for a 6-sty flat and store, on a plot 39.6x100.11, at 358-360 East 121st st, to cost \$40,000. Levinson & Zipkin are owners.

146TH ST.—Geo. Fred Pelham, 503 5th av, is making plans for three 6-sty flats, 37.6x86.11, for Black & Behrendt, 209 East 76th st, on the south side of 146th st, 375 ft. west of 7th av. Cost, \$135,000.

183D ST.—Moore & Landsiedel, 148th st and 3d av, are planning for two 5-sty flats, 49.11x90, for Donald Robertson, 246 West 108th st, on the northeast corner of 183d st and St. Nicholas av. Cost, \$80,000.

PARK AV.—Maximilian Zipkes is drawing plans for two 6-sty flats and stores to be erected on the southeast corner of Park av and 103d st, 80x100, to cost \$90,000. Cohen & Kraft, of 61 Thompson st, owners.

PROSPECT AV.—Haas & Lippman will build at the north-east corner of Prospect av and Macy Place, Bronx, a 6-sty elevator apartment house, to cost \$75,000. L. F. J. Weiher is architect.

### Dwellings.

Maximilian Zipkes, 147 4th av, has plans for two frame cottages to be built on two plots, each 50x100, in Yonkers, N. Y. Houses will have stable and automobile garage attached. The total cost will be \$20,000, and will be occupied by the owners, Messrs. Benoff and Levenson.

162D ST.—Watson & Bethel, 214-17 West 125th st, are preparing plans for two private dwellings, 3-sty and basement, on plot 40x52.4 ft, to be erected on the south side of 162d st, 132.7 ft east of St. Nicholas av, to cost \$20,000. Norton & Dalton are the owners.

79TH ST.—George L. Rives, 32 Nassau st, will build at Nos. 65 to 69 East 79th st, on plot 40x102.2, a new residence. He informs the Record and Guide that no architect has yet been selected.

### Churches.

8TH AV.—St. Saviour's Church, the Rev. James J. Flood, pastor, will build a new edifice on 8th av and 6th st, Brooklyn. No contracts have yet been awarded.

Schickel & Ditmars, 111 5th av, are taking figures on the general contract for a church to be erected at Montclair, N. J., for the Church of the Immaculate Conception, to cost \$75,000. No contract let.

116TH ST.—Plans are ready for figures on the general contract for the 2-sty brick and concrete synagogue, 70x100.11 ft., which Ohab Zedek Congregation, 190 Bowery, will erect on south side of 116th st, 200 ft. west of 5th av, to cost \$60,000. Hedman & Schoen, 302 Broadway, are architects. No contract let.

### Stables.

91ST ST.—James S. Maher, 1267 Broadway, general contractor, has not yet awarded sub-contracts for the 2-sty stable which Mrs. T. W. Shannon, 5 East 92d st, will erect at No. 112 East 91st st, to cost \$15,000. Brick, bluestone coping, tar and gravel roof, etc.

### Mercantile.

23D ST.—Figures are being received on the general contract for the 8-sty loft building, 50x100 ft., which the Eastman Kodak Co., 7 West 22d st, will build at Nos. 237 and 239 West 23d st. The construction will be of reinforced concrete. McKim, Mead & White, 160 5th av, are taking bids.

17TH ST.—G. H. Pigueron, 32 Union sq, is taking figures on separate contracts for the 11-sty loft building, 20x85, which W. G. Pigueron will build at No. 15 West 17th st. No contract let.

125TH ST.—Hurtig & Swartout, 211 West 125th st, are taking figures on the general contract for extensive alterations to the office building Nos. 66-70 East 125th st, from plans by Neville & Bagge, 217 West 125th st. No contract let.

BROADWAY.—No contract has yet been awarded for the 4-sty store and office building which Morris Weinstein, World Building, will build on the east side of Broadway, 57.7½ ft. north of 66th st, running through to the west side of Columbus av, 75.4 ft. north of 66th st, to cost \$50,000. Louis C. Maurer, 22 East 21st st, is architect. Plastic slate roof, brick, stone, steam heat, etc.

LAFAYETTE PL.—Anthony F. Koelble, 45 Cedar st, has sold No. 415 Lafayette pl, a plot 28.4x150 ft. On this site, owner and architect's name withheld, will be erected a 10-sty loft building. No contract let.

### Alterations.

34TH ST.—Westervelt & Austin, 7 Wall st, are making plans for alterations to the first story of the 12-sty office building, 110 West 34th st, for which Childs Unique Dairy Co., 42 East 14th st, are lessees.

5TH AV.—No contract has been awarded yet for extensive alterations to the 5-sty office building, 520 5th av, estate of Geo. Henry Warren, 68 Broad st, owners; Barney & Chapman, 520 5th av., architects. Three-sty side extension, 8.8x38, add two stories and interior changes; cost about \$15,000.

## BUILDING NOTES

Every man is entitled to a profit on his labor.

The offices of the Atlantic Terra Cotta Co. have been removed from the Charities Building, 287 4th av, to the Kennedy Building, 289 4th av.

Rufus P. Jennings, Century Hall, Sutter av and Franklin st, San Francisco, Cal., is secretary of Committee on Reconstruction of San Francisco. W. V. Stafford is State Labor Commissioner.

Sidney B. Corby, who for some time was local manager of the Pullman automatic ventilator, and widely and favorably known, has been appointed the head of the New York office, 1123 Broadway, of the Vapor Heating Co.

The Department of Mechanical Engineering of Columbia University held a fire test, on May 17, of an asbestos board partition, constructed by the Johns-Manville Co., at the Columbia Fire Testing Station, in 116th st, west of Broadway.

Annual election of the American Institute of Electrical Engineers: President, Samuel Sheldon (of the Brooklyn Polytechnic Institute); vice-presidents, A. H. Armstrong, Schenectady; H. H. Humphrey, St. Louis; F. G. Baum, San Francisco; managers, Paul Spencer, Philadelphia; Paul M. Lincoln, Pittsburgh; John J. Carty, New York; A. M. Schoen, Atlanta; treasurer, George A. Hamilton, New York, and secretary, Ralph W. Pope, New York.

The Contractors' Protective Association, of which Eugene P. Clark is secretary, is not disposed to grant the uniform wage scale the rockmen and excavators have asked, saying that they cannot afford to pay poor workers the same as good ones, there being a great difference in rockmen. Conferences are being held.

The Metropolitan Life Insurance Co. has loaned to Brody, Adler & Koch, 132 Nassau st, a building loan of \$325,000 on the property Nos. 307 to 313 West 79th st, on which they will erect an 11-sty high class elevator apartment house, on plot 100x102.2 ft., from plans by Schwartz & Gross, 35 West 21st st. (See issue March 31, 1906.)

The Philadelphia Concrete Co., of Philadelphia, has opened a New York branch at 489 5th av. Mr. D. A. Cameron, the engineer of the company, will be in charge of the New York end of the business. The operations of the company include all kinds of concrete construction. They make a specialty of concrete residences, from high-grade fireproof country houses to low-priced bungaloes and workmen's cottages.

Mayor McClellan has approved of the ordinance to amend Section 105, of the Building Code, so as to read as follows in the first paragraph: "Every building hereafter erected or altered, to be used as a hotel, lodging house, school, theatre, jail, police station, hospital, asylum, institution for the care or treatment of persons, the height of which exceeds *thirty-six feet six inches*, excepting all buildings for which specifications and plans have been heretofore submitted to and approved by the Department of Buildings, and every other building the height of which exceeds seventy-five ft, except as herein otherwise provided, shall be built fireproof." The new law will permit most 3-sty buildings

to be used as hotels without being fireproof. More plans were filed in the last year for buildings which can be hotels than in any year in the history of the Department.

Why should any suburban real estate syndicate make incorrect assertions in its public notices when the simple truth would be more effective? Why, for example, should it be thought necessary to say that the time from Broadway is "fifteen minutes" or "half an hour," and that the trolley fare is but "five cents," when everybody knows the time required is longer and that the fare is two or more times five cents by the usual route? It seems like gilding pure gold to make false statements about suburban propositions whose high qualifications speak for themselves. Another form of error that real estate boomers in the outskirts fall into is the predicting of a completed subway "within eighteen months," or "two or three years," when there is no probability of a subway for them for ten years at least. There are nineteen subway lines marked out, but a generation may elapse ere they all are worked out. Successful salesmen understand that the most effective way of making a customer is to tell him the simple truth. Polish it and present it in a handsome setting if you will, but still let it be only the simple truth, for the buyer recognizes it at once, and the salesman wins his confidence. Leave the "silver shine" for those who only have "pewter" to sell.

### May Removals.

Louis Schrag, real estate broker and agent, from 124 West 23d st to 142 West 23d st.

Andrew F. Gilsey, real estate operator, from 44 Pine to the Cockroft Building, 71 Nassau st.

Beekman Realty Co., real estate operators, from 243 West 116th st to the Singer Building, 149 Broadway.

Cornish & Anderson, real estate agents and brokers, from 7th av and 124th st to 157 West 125th st.

Prescott Realty Co., real estate operators, from 155 Broadway to 171 Broadway, corner Cortlandt st.

T. B. ACKERSON.

One of the busy leaders in Long Island real estate enterprises is Mr. T. B. Ackerson, the builder of "Ackerson houses" in old Flatbush, Fiske Terrace and the Jersey suburbs; also general manager and treasurer of the New York Land & Warehouse Co., of Long Island City, and the mainspring of half a dozen real estate, building and building material concerns. Mr. Ackerson has made a "pile" and is going to retire from active business this year, though only a young fellow yet. He was born in old Rockland county, New York.

## Encroachments Must Stop.

Mayor McClellan has vetoed the legislative bill legalizing existing encroachments on the building line in this city under certain conditions. The bill was supposed to be in behalf of the New Amsterdam Theatre and the Knickerbocker Building. The courts have uniformly held that no legislative body has authority to legalize or permit such encroachments upon the public streets.

"I seriously doubt," said the Mayor in his memorandum, "whether the legislature has power to pass a bill permitting private persons to usurp a portion of the public street for their own purposes. Putting aside, however, the constitutional question involved, I consider the bill thoroughly bad in principle.

"An attempt to legalize a seizure of public property for private use can hardly be characterized as a bill to quiet title. No one denies that the title to the public streets is in the city. A more technical violation of the law can sometimes be cured by legislation where no real injury has been suffered by the public, but in this case substantial property rights are involved.

"I am informed that one building alone which is situated on one of the most valuable corners of the city encroaches upon the street to the extent of 1,250 square feet, while another is so built that the owner derives a revenue of \$3,000 a year from the stands and shops erected, not on his own, but upon city property. The city cannot afford to tolerate any such usurpation of its streets for private purposes, and I therefore refuse to accept the bill on behalf of the city."

## Acmy Real Estate Club.

The Acmy Real Estate Club had its closing dinner of the season at Reisenweber's, Columbus Circle, on Monday evening, 14th inst. The guest of the evening was Mr. Walter Lindner, of the Title Guarantee & Trust Co. At the conclusion of the dinner, the president, Mr. M. Joseph Harson, introduced Mr. Lindner as one of the best authorities on the subject of real estate titles in New York, who would address the club on "Our Present Title System—Its Merits, Defects and Remedies."

Mr. Lindner explained the genesis of our present system in feudal times and the variations which have survived in titles as we recognize them to-day. He pointed out the defects in the system and explained why various proposals to reform the system could not succeed by reason of material objections. He was listened to with great interest and at the conclusion of his remarks answered numerous questions put by the members, and an enthusiastic and unanimous vote of thanks was passed for his interesting and instructive address.

Mr. Harson followed with an account of the movements to reform the system of titles by registration under the authority of the State, and gave a brief account of the so-called "Torrens System."

The club has voted to have a number of outings during the summer and fall similar to those they had a year ago, and the first outing will be held on Saturday, June 2.

The Staten Island Suburban Homes Co. has been organized by clients of the firm of Cuzzo & Gagliano to operate in Staten Island real estate and build 1 and 2-family dwellings.

**Beautiful Estate on Manhasset Bay Sold for Development.**

The country estate of Frederick W. Wright, consisting of 55 acres, and having a water front on Manhasset Bay of about 1,700 ft. and a frontage of about 3,000 ft. along both sides of the macadamized main road from Manhasset to Port Washington, has just been sold through Klawonn & Co. and James W. Jacobus to Paris S. Russell, and immediately resold by the same brokers to the Manhasset Point Company, which was formed through the offices of the Property Development Company and Taylor-Storm Realty Company.

Immediate development will be commenced on a most beautiful and unique plan, cutting the property into about one hundred gentlemen's villa plots, consisting of about one-half to three-fourths of an acre of ground each. It will be along the line of a private park, as laid out by a landscape architect and forester, John Thomas Withers, and probably have a shore-drive extending the entire length of the water front, and connecting with the Port Washington Drive. The roads, parkways and beach rights will be owned by an association formed of the property owners of Manhasset Point.

This estate has changed hands only two or three times since the original grant from King George III., 200 years ago. At one end of this property stands the old Plandome mill, built in 1693. Almost the whole property abounds in large and beautiful trees from all parts of the world, some of which are over 100 years old, and the plan is to so arrange drives, sites, etc., as to save all trees.

All homes are to be erected on sites designated by the landscape architect, so that each house may have its unobstructed view of Manhasset Bay, Plandome Lake and the Manhasset Hills. One of the houses now on the property is to be immediately turned into a company office and active operations will commence. The project is being handled by the Property Development Company and Taylor-Storm Realty Company.

Up in the Mount Hope section of the Bronx, where there is expectation of a pleasant up-building of private houses, the Methodists have had a little mission which has grown into a church organization. This week the congregation bought the adjoining plot on the west and the house of worship will be enlarged. The site is on West 177th st, near the Concourse.

PERSPECTIVE VIEW—ROYAL INSURANCE BUILDING.

Corner of William Street and Maiden Lane, New York.

Howells & Stokes, Architects.

William st and Maiden Lane, where this building is to stand, do not intersect at right angles, and this results in an obtuse angle, of which advantage has been taken not only to round off the building, but to treat the corner as the architectural axis of the composition. Georgia marble is being used for exterior

walls through the first four stories, terra cotta in the topmost three, the fourth from the top in polychrome terra cotta, and the intervening nine stories in red brick, marble-dust joints, white terra cotta sills, keystones and imposts. It will be a very imposing building.

H. C. Mapes & Co., auctioneers, will sell at the New York Real Estate Salesroom, 14 Vesey st, on Thursday, May 24, at 12 M., 215 lots, situated on the Public Place, Westchester, Tremont, Benedict and Pugsley avs and Old rd, adjoining Unionport, in the Borough of the Bronx. The lots are located in a very important section of the annexed district of the city, and the sale should attract wide attention. The terms of sale will be very liberal, and titles will be guaranteed to purchasers free of cost. Maps and particulars may be obtained of the auctioneers, 55 Liberty st.

Horatio J. Sharrott, auctioneer, will sell at the office of the Prince's Bay Realty Co., Pleasant Plains, Staten Island, on Monday, May 21, at 2:30 P. M., the following pieces of property on Staten Island: Two large deep water fronts, with upland acreage, near Tottenville; one large water-front with upland, in factory district, at Kreischerville; one 14-acre, one 10-acre, one 7-acre, one 3-acre and two small acreage parcels in the 5th Ward of Richmond Borough, suitable for subdivision. Also, one building lot in Tottenville. The special attention of speculators, manufacturers and shipbuilders is called to this partition sale, and full particulars may be obtained of the referee, Percival G. Ullman, 36 Whitehall st, Room 36.

PRIVATE SALES MARKET

SOUTH OF 59TH STREET.

BROOME ST.—Abram Bachrach bought 37 Broome st, a 5-sty double tenement, 25x100.

BROOME ST.—B. Klingenstein sold to Miller & Podolsky the 5-sty tenement 103 Broome st, 25x75.

Large Interests in the Exchange Place Deal.

BROADWAY.—Henry E. Jones and Edward R. Wharton, as trustees of the Jones estate, sold through Herman Le Roy Edgar the fee to the Consolidated Exchange Building, 58 to 62 Broadway, northeast corner of Exchange pl, running through to New st, and containing 8,731 sq. ft. It fronts 67.4 ft. in Broadway, 132.7 ft. in Exchange pl and 66.10 ft. in New st. The purchase price is \$1,715,000. The nominal buyer is Walter B. Warren, it being understood that large interests are behind the purchase. The Consolidated Stock and Petroleum Exchange leased the property for 21 years at \$54,000 a year, with the privilege of two renewals, and still have six years to run. The company erected a 6-sty exchange and office building, and it is understood that a cash offer of \$300,000 was made for the lease, that figure covering the full assessed value of the property.

CHRYSTIE ST.—Julius H. Reiter, as attorney, sold 213 Chrystie st, a 6-sty tenement, 28x100.

**ELDRIDGE ST.**—Lauretta H. Harding sold to Harry Fischel 18 Eldridge st, front and rear buildings, 25.1x87.6.

**FORSYTH ST.**—B. Chenken sold for Isaac Leipzig to Lowenfeld & Prager 17 Forsyth st, 5-sty front and rear tenements, 25x100.

**GOERCK ST.**—E. V. Pescia & Co. resold for Shapiro, Levy & Starr to a client the 5-sty double tenement, with stores, 33 Goerck st, 25x100.

**HUDSON ST.**—M. Dlugasch bought from Alderman Patrick Higgins 423 to 429 Hudson st and 103 and 105 Leroy st, the northwest corner, 75x80, with 2 and 3-sty dwellings and stores. The property faces St. John's Park. The buyer will erect two 6-sty apartment houses.

**JONES ST.**—Isaac Meister sold to the Emanuel Realty Co. 11 Jones st, a 5-sty tenement, 25x100.

**LAFAYETTE ST.**—M. & L. Hess sold for A. F. Koelble the 4-sty front and rear buildings 415 Lafayette st, formerly 28 Lafayette pl, between 4th st and Astor pl, 28.4x150, to a client, who will improve by erecting a 9 or 10-sty building.

#### How a Plot was Accumulated.

**WILLIAM ST.**—Charles F. Noyes Co. definitely confirms the purchase of a large plot, accumulated at the northeast corner of William and John sts by the South Manhattan Realty Co. The Noyes Co. sold to this company No. 114 William st for Mrs. Blanche Weiler. They also sold Nos. 110-12 William and 69 John sts for Carsten C. Borger and Nos. 71-3 John st for the Reformed Dutch Church of America to the same company. The sale of Nos. 71 and 73 John st by the Reformed Dutch Church of America is remarkable on account of its being the first sale by this church of downtown property during the past two hundred years. The church sold because the parcel was an isolated one. It is stated that the same interests have purchased through E. H. Ludlow & Co. No. 75 John st from the Renwick estate. With this latter purchase, all the property desired by the South Manhattan Realty Co. has been accumulated. The total plot contains about 8,000 sq. ft., with frontages of about 62 ft. on William st and about 97 ft. on John st.

**2D ST.**—Goldblatt & Schoenfeld sold to Friedman & Messe 246 East 2d st, a 6-sty tenement, 24.9x106.

## REAL ESTATE NOTES

M. Morgenthau, Jr., & Co., 135 Broadway, have a beautiful plot of thirteen lots in 96th st, between Broadway and West End av, which they will divide to suit.

There are too many duplications of street names in Greater New York. Too many "Broadways," "Fulton sts" and "5th avs" for one town. A municipal committee for the revision of city nomenclature is in order.

Charles B. Molloy, of 44 Court st, Brooklyn, has a Smith st corner in Brooklyn, consisting of four 4-sty double brick flats and two 1-sty brick stores, which he is offering for \$70,000. The property is rented for \$7,392.

The attention of the Board of Health should be directed to a huge chimney at No. 32 Rose st, between Duane and Frankfort. The heavy, suffocating clouds of black smoke which issue from it at times is extremely annoying to the neighborhood.

C. J. F. Gunning has been recently appointed manager of the Westchester County branch of the Lawyers' Title Insurance & Trust Company. Mr. Gunning for the past three years has been connected with the city department of the same company.

Within the next four weeks no less than 1,569 building lots will be sold from the auction block in Manhattan and the Bronx, according to schedules already advertized: On May 21, 150; May 22, 336; May 23, 174; May 24, 215; May 29, 369; June 12, 325.

A very interesting sale of Staten Island land parcels is scheduled for May 21 at Pleasant Plains. It offers a very advantageous opportunity of getting into one of the choicest suburban regions in the world. Mr. Ullman, of 36 Whitehall st, is the referee, and can give particulars.

Thomas H. Raywood & Co., a new firm of real estate brokers, have opened offices at 2246 Broadway, just above 80th st. Mr. Raywood was connected for some years with the office of L. J.

Phillips & Co. Mr. H. E. Uttley, late a manager of the Bronx office of the same company, will be connected with the office.

A chance to rent an exceptionally pleasant and conveniently situated home at Dunwoodie (Yonkers) can be learned about by addressing "M. J. W.," care of this office. There is a large stable on the place, an acre of ground and a fine dwelling. The commutation fare to the Battery is only \$6.67 a month, and the house is but ten minutes from the railroad.

More than fifty defendants pleaded guilty this week to violating Section 96 of the Sanitary Code in reference to the escape of smoke within the city limits. Many of the defendants said they had already made arrangements for smoke consumers. The judges suspended sentence, but warned the offenders that if they were arrested again for the same offense the court would be severe. It begins to look as if the nuisance would be abated.

There is no official confirmation of the report that the Grand Union Hotel property, at Park av and 42d st, is about to be turned over to Mr. Belmont's representatives as a terminal site for the Belmont tunnel line under the East River, but there is strong unofficial assurance. The tunnel company's franchise extends to 11th av, but as it has never been explained how the new line would get past the City's Subway, for the present at least, it is probable that the plans do not contemplate going beyond Park av. Even so, this leaves a very interesting veil of mystery to contemplate at this busy corner. Within the realms of possibility are (first) a physical connection with the Subway tracks for the Belmont line within the present Grand Central Subway Station; (second) a terminal within the Grand Central Depot, and (third) a separate terminal station on the site of the Grand Union Hotel. Denials of the Grand Union deal must imply one of two other alternatives. The ideal solution would be a continuous run from the City Hall loop to the other end of the tunnel line, with no change at 42d st, but in any event it seems very necessary that the company should have room for extra tracks, if not for a loop, at that junction. The president of the company, when interrogated on these points some time ago by the Record and Guide, professed, of course, to be quite unable to answer.

### 4,500 Acre Transaction.

One of the largest Long Island sales of the year was reported this week by the D. & M. Chauncey Real Estate Co., which has negotiated the transfer of a tract of 4,500 acres of land, immediately east of Port Jefferson. The deal has been pending for some time and marks the beginning of a new line of development in that section. Much of the property fronts on the bay at Rocky Point.

L. Shannon Davis, a Boston capitalist, is the buyer. At this place the mainland rises to a steep bluff overlooking the Sound and is covered with big trees. The Port Jefferson branch of the Long Island Railroad runs through the property with a station about a mile and a half distant, making the land easily accessible for New Yorkers.

The tract comprises seven parcels that were collected for Mr. Davis. The principal bank at Keene, N. H., owned most of the 4,500 acres. The price paid was close to \$250,000.

### Greenpoint Subway Put Off.

The proposed subway to extend from the Blackwell's Island Bridge plaza at Jackson av and Barns st across Newtown Creek to and through Greenpoint to the Williamsburg Bridge will probably not be built for several years, despite the fact that borings have already been made along this route and the consents obtained over part of it. The cause of this delay is said to be the Elsberg bill, owing to whose provisions the city is not likely to get any one to bid on several of the subways that have been definitely projected. It is understood that this Long Island City-Greenpoint route was slated to be one of the first to be constructed, but now there is little hope of this being started for at least three years.

—A great change within ten years is prophesied for the New York daily papers. Either they will have become for the most part mere local newsmongers, with the most of their "news" of no importance to people who have been educated in American schools, or they will have taken on the character of real national journals, in which the many high qualities of the magazines of the day will be seen in combination with information of real value, discussions of great questions by the cultivated public using the journals as a forum, a certain tangible and personal activity in good works proceeding from the publishing houses to relieve distress and rectify great wrong, and information and opinion intermingling, to guide, instruct and entertain. It is only too true that the daily press is relinquishing its birthright to the magazines and that cultivated people are more and more looking upon the dailies as mere circulators of the routine trivialities ticked off and passed around by the automatic associations and agencies.

150TH ST.—S. Cowen, in conjunction with S. Strauss, sold southwest corner of 150th st and Union av, a 4-sty double flat, with stores, to Oscar Lindner.

150TH ST.—S. Cowen, in conjunction with S. Strauss, sold southwest corner of 150th st and Prospect av, a 3-family dwelling, for Charles Heglin.

152D ST.—Rubinger, Klinger & Co. sold for Nathan Goldstein a 6-sty new law tenement, with stores, in course of construction 10 families on a floor, south side 152d st, 75 ft east of Melrose av, 50x117. In part payment the seller takes 398 Pleasant av, southeast corner 122d st, a 5-sty tenement, 32x76.

182D ST.—William R. Lowe & Co. sold to Mr. Young southeast corner of 182d st and Davidson av, 65x100.

BEACH AV.—E. V. Pescia & Co. sold for the Ignatz Florio Association to Harris & Timble the 2 6-sty new law tenements in course of construction on Beach av, near 150th st, 80x100.

JACKSON AV.—Chas. E. Duross sold 2 lots, 37-38, on Jackson av, Marble Hill, N. Y., 50x100, for Edward Early to William J. Reid and Jos. Morgan, price about \$12,000.

UNION AV.—George E. Cohn and J. L. Davis bought, through S. Cowen, the lot on the east side of Union av, 150 ft north of 152d st. This and adjoining plot will be improved with 37.6 5-sty houses, 4 families on each floor.

UNION AV.—S. Cowen, in conjunction with S. Strauss, sold a vacant plot 75x100 on the east side of Union av, north of 152d st, to John Davis, who will improve with two 5-sty flats.

### LEASES.

Richard M. Montgomery leased for J. H. Jones, a client of John F. Doyle & Sons, the entire property 47 Broadway, running through to 23 Trinity pl, to the Childs Unique Dairy Co., represented by Willard S. Burrowes, for a term of 21 years, with two renewals. The tenants will take possession May 1, 1907, and after extensive alterations will occupy the ground floor and basement. The upper floors will be rented as offices.

### Brick Strikes Extending.

Fishkill is still held up by the strike, and work has also been stopped at Kingston, Coeymans and New Windsor, but operations continue at Haverstraw, Rose-ton and Hudson. The demands of the strikers are given as follows:

First—22,000 brick to constitute the output of a single machine for a day, working with one gang of men. With a gang and a half the output may be increased to 33,000. Second—An increase of ten cents per day in wages. Third—Men watching at kilns at night to receive \$1.25 for a half night's work. Fourth—Boatmen to receive \$40 per month and board and no other work required of them. Fifth—Ten hours to constitute a day's work, with half an hour for breakfast and one hour for dinner. Sixth—All workmen on the yards to be members of the International Brick, Tile and Terra Cotta Workers' Union.

Arrivals are only half normal. Prices are strengthening, and a few sales at \$11 $\frac{1}{2}$  for Common Hards have been made. Seven barges were left over from last week's sales in this market.

### SEVERE TESTS OF WHITE LEAD.

Too many buyers are satisfied to take anything that is branded "White Lead" without knowing whether it is genuine, or how it is made; for quite as much depends upon the process as upon the purity of the materials used.

Some large users of lead are careful to test and analyze. This is a wise course and should be followed so far as is practicable.

Probably no buyer exercises as much care or tests so severely as the U. S. Government. Samples submitted must not only be pure, but must stand tests that are much more severe than any experienced in actual use.

It is therefore much more than an ordinary indorsement of Hammar Bros.' White Lead (St. Louis, Mo.) to have it selected by the U. S. Government for use in painting U. S. battleships. And the most satisfactory part of it is that the order placed amounted to 39 cars—two solid trains.

In this age of the corporation it is something of a surprise to find a large concern like Hammar Bros. still doing business as a co-partnership; but the Hammar's pride themselves on it, and this other fact that they are an absolutely independent concern having no connection with any other lead maker.

We have recently seen lists of their dealers and painters in two large cities, and it is a showing to be proud of.

The Palisades Realty Co. will soon start developing 44 acres of land in Richmond Boulevard, at New Dorp, S. I., which it has just purchased from the trustees of St. Andrew's Church. The church owned the tract for more than two hundred years, and its rectory is reserved on an adjoining portion of the land.

—The newer passenger coaches of one of the railroads leading out of New York are very agreeable to the eye. The finish is mahogany, almost perfectly plain, and with very little moulding or ornament. A narrow inlaid line of white holly and cocobola is used to indicate panels.

DUNKIRK, N. Y.—The American Locomotive Co. has completed negotiations for the purchase of more than 50 acres of land near its Brooks works, at Dunkirk, N. Y., and the trade will probably soon learn details regarding the extensive improvements to be made there.

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

MORTGAGES

NOTE.—The arrangement of this list is as follows; The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

May 11, 12, 14, 15, 16 and 17.

## YOUR SYSTEM OF RECORDS?

BETTER USE OURS

It costs a dollar a mile to go to Chicago in a Special Train, but only a few cents a mile on the Empire State Express. The same is true of the RECORD AND GUIDE QUARTERLY. Each subscriber receives for Twenty Dollars a year a service that would cost him thousands of dollars.

A system of records is as necessary to a real estate broker as the "ticker" to a stock broker. Conceivably a man might get along without either, but he would suffer immensely both in person and estate.

By means of the RECORD AND GUIDE QUARTERLY, which occupies only a few square inches on a shelf or a desk, the real estate man is put in possession of a system of records in which he could find any particular transaction, be it conveyance, mortgage, auction sale or lease, as easily as he can find the name of one of his clients in the telephone book. It is permanent in form, ever ready and available. It does not go "out" like the office boy, or make mistakes like the stenographer.

The annual number of the RECORD AND GUIDE QUARTERLY contains ALL the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations.

These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments.

DON'T GUESS

A Real Estate Information Service is as necessary in a Real Estate Broker's office as the ticker in the office of a Stock Broker.

A personally maintained Service is inefficient and inordinately Expensive compared with a Big Central Co-operative Service. The Biggest Service is the best, because the advantages of Co-operation are centered there on the biggest Scale.

The RECORD & GUIDE to-day supplies thousands of Brokers and others with information—has been doing so for a generation. Its own records cover the history of ALL transactions of every kind in New York for forty years, and in addition to these it has a COMPLETE PLANT that includes the previous period.

Obviously, the RECORD & GUIDE possesses FULL information covering ALL particulars concerning real estate. Other systems are necessarily either partial or mere second-hand abstracts of the records which the RECORD & GUIDE has been gathering and publishing in the course of its forty years' history.

If you need Real Estate Information don't guess. Don't use personal Systems. Don't use partial Systems. Don't use temporary Systems that must be fragmentary and Second-hand. Don't use Systems built for the use of a Few, and that offer you scarcely any of the advantages of co-operation.

USE

THE RECORD & GUIDE BUREAU OF REAL ESTATE INFORMATION. The oldest, the largest, the most permanent, the best equipped—a Service that can serve you TO-DAY and TO-MORROW on a progressive plan.

### JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

WALL STREET seems to have reached an impasse. The market may be said to be in the "doldrums." Who has not seen famous racing yachts under such conditions? They are either, as in Coleridge's Ancient Mariner, "as idle as a painted ship upon a painted ocean," or little catspaws of wind cause their sails to flap feebly. Every equipment for motion is embodied in each one of them, and yet none is able to move, save as they may drift with the tide. There are no favoring breezes nor even head winds. The stock market is in precisely this condition. All the facts are bull facts, and a great decline having occurred the market should move forward. Instead of which it is drifting—the tendency being backward. Should, however, this tendency be arrested, there is no reason why a new season of speculation should not be inaugurated. Yesterday's market showed a decided upward movement. The most pronounced bears acknowledge that the basic conditions continue good, but they point to the declining market and claim that its action is discounting. Something not yet apparent on the surface. They further do not hesitate to express fears of the widespread real estate speculation now going on throughout the country and they claim that it is an unvarying index of the culmination of the general period of speculation, and that the halt in Wall Street always goes before a complete halt in extensive real estate dealings. It is just as well to give both sides of the question of the immediate future in Wall Street. It will be wise on the part of real estate operators to watch the financial markets closely. So far as these paragraphs are concerned, the Record and Guide will endeavor to reflect in them the consensus of opinion and present the facts with special reference to their bearing on real estate ventures. The immediate future, in both regards—that is to say, from the optimistic as well as the pessimistic point of view, is certainly highly interesting. Here we have easy money, railroad business the largest ever known, labor fully employed and money in active circulation, while at the same time we have the anomaly of a depressed and declining stock market practically since the first of the year. Commission houses are deserted. They are idle without customers. In Monte Carlo phraseology—as has been well said—the croupiers at the tables of speculation are playing with each other and the numbers that are called out as the wheel sluggishly revolves have no significance. The technical condition of the stock market also calls for remark. Of course what will happen if the stocks being sold these days do not belong to the sellers, and otherwise speaking, are short sales, and the real owners of stocks do not take fright—is that the short sellers will have to recover their stocks in the market. The consequence would be that they might in this way put the market up on themselves. Yet it cannot be said that there is at present, or there is likely to be a short interest sufficiently extended to advance the whole market. It is more within the bounds of probability that there will be sporadic advances such as indicated in these columns last week. In reviewing general conditions, one thing is evident as it is decidedly gratifying. Europe has perfect confidence in the stability of American finances. The stream of gold

from France, Germany and England continues to flow hitherward and would, if permitted, become literally a torrent. This fact with our excess of exports over imports is assuredly not an argument in favor of lower prices. How Europe regards us is strikingly illustrated by the statement from Paris that the Pennsylvania Railroad Company sold in the French capital \$50,000,000 of bonds. This is said to be the first time an American corporation has taken a loan in France, another evidence of the position of the United States as a world power.

THE amplitude of the security which the City of New York furnishes—or would be able on occasion to furnish—to those who buy its bonds, is imperfectly understood. The "assets" of the City of New York acquired through the purchase of the proceeds of bonds are constantly enhancing in value while the face value of the bonds remains the same. It is so with no other corporation, regarding the City of New York as a corporation in that sense. The roadbed, the rolling stock, the terminal structures and the bridges and culverts of a railroad corporation depreciate from use. The ships of a great steamship company, however large their cost or however enlightened the ideas of their constructors, become, in a short time old-fashioned and the selling value of an ocean leviathan is one-half less, perhaps, than its cost after a dozen years of service. It is so with factories and mills requiring elaborate and complex machinery, and every such manufacturing concern—the United Steel Corporation furnishes a handy illustration—carries a "depreciation" account. The tangible assets of the City of New York, however, increase in value. "The Sun" on Sunday had an article giving a concrete illustration of this in the case of Central Park, acquired by the City as a site a little less than half a century ago. The original cost of Central Park as pointed out by "The Sun," was \$12,500,000 and subsequent improvements have brought up the cost to a round \$15,000,000. Most of the bonds issued for the acquisition or improvement of the park have long since been paid off and the few which are still outstanding are not at a high rate of interest, but if the whole original payment of \$15,000,000 were still outstanding at six per cent. interest for fifty years, the amount of this interest for the term would be 300 per cent. or \$45,000,000, which would bring up the cost of the Central Park, principal and interest, to \$60,000,000. But its present value (it is appraised at \$185,000,000) is not less than \$200,000,000.

GOOD CAUSE there is for the Allied Real Estate Interests and all others who worked for the great reformation to rejoice over the consummation signalized this week by the Governor's approval of the Mortgage Recording Tax. The dinner to Senator Page, and the one to be given to Mr. Sands by the Lawyers' Club next week, are an assurance that even in this somewhat sordid age there are elements who applaud courageous devotion to public duty. This new law, superseding the one for an annual mortgage tax, will make a great difference to property interests. There is nothing that men are so much concerned in as property. For a very great many one-half of one per cent. turned the scale from hope to disappointment. In the last few weeks a very noticeable slackening of real estate and building business has been attributed to the effects of the former law. Mortgages recorded after July 1 will now have to pay but one tax and be thereafter exempt, but those which will be recorded before that date will be subject to the local tax on mortgages of two per cent.—at least to the same extent as heretofore. Mr. Lawson Purdy, Secretary of the Tax Reform Association, suggests in another part of this paper a way of avoiding this consequence. Practically, mortgages that will be filed after July 1 will be tax exempt, and, as Mr. Sands points out in another place, they will be on a par in that respect with Government, State and Municipal bonds; and so should in time attract a great deal of new capital into this field, with the ultimate effect of giving greater encouragement to building, home-owning and real estate expansion generally than ever before. If it shall work out this way, the change, coming at a time when new rapid transit routes are opening up a wide territory to settlement, the now departed annual tax law may in after years seem a blessing in disguise. Appreciation for the work of the Secretary's office of the Allied Interests is a deep and widespread sentiment. Its organizing methods were exceedingly thorough. True, it rallied rather than made public sentiment, but its work was none the less valuable. The real estate interests of New York State and New York City were never before so well co-ordinated, and it is a good omen for the future of property interests that the organization is a permanency—for there are other great things to do.

## The Unburnable City.

**W**ILL the unburnable city ever be built? This is a question that has been asked many times, but especially since the recent disaster at San Francisco. The general destruction of property there has cleared the ground of buildings which were not fireproof, and there is a general feeling among architects and builders that a unique opportunity has thus been afforded to construct a city which shall be as free from danger by fire as it is possible for any city to be. Experts say the practically unburnable city can be built if right steps are taken in the very beginning to make it so. There are already many buildings in various parts of the country which are, in themselves, quite fireproof. But it is not an uncommon sight to see such structures, embodying all the resources of modern protection against fire, standing in the midst of buildings which have not the slightest claim to be called even semi-proof. When a fire starts in such a district it spreads rapidly and soon assumes the proportions of a conflagration. The fireproof structure standing alone in the midst of hundreds of burning buildings is subjected to a most severe heat and usually suffers considerable damage. It is at once said, therefore, that no building can be made unburnable, and inasmuch as it costs more to build fireproof, people come to the conclusion that as all buildings burn in a great fire not much is gained in going to the extra expense of building fireproof.

But even under the severest trials—as in San Francisco, where fire raged practically unchecked—the modern fireproof structure is the only one that in any way helps to check the flames. This was shown at Baltimore, Toronto, Rochester, and later at San Francisco. In the last city the protected steel structures survived so well that many of them will soon be ready for occupancy again. All this goes to show that the indestructible building is not an impracticable dream. The Crocker building, a steel and hollow tile structure, survived fire and earthquake so well that it is already in use by tenants. The unburnable city will have wide streets. Its buildings will be fireproof, both as regards methods and materials used and interior fire-fighting equipment. If it were possible to take all the big fireproof structures in New York, Chicago, Baltimore and other cities, and set them down in the burned out district of San Francisco we should have a good example of what an unburnable city would be like. Every year we burn up \$150,000,000 worth of property and lose 6,000 lives in fires. In some years the total reaches \$250,000,000. Still builders are allowed to go on putting up flimsy structures which can do nothing else but burn when the time comes.

The first thing the authorities of the unburnable city will do will be to draw up a code of building laws which shall forbid the use of any but well-tested fire-proofing material. They will enforce these laws with rigorous severity. Nothing but the protected steel frame will be allowed for high buildings, and even dwellings will have to be built of hollow tile bricks, cement, or of some other unburnable material which all the great conflagrations have shown to be the most effective. Large floor spaces in warehouses and dry goods establishments will be subdivided and separated by fireproof partitions with fireproof doors and protected stairways. Wire glass will be used for all windows. In large office buildings the elevator shafts will be encased so as to prevent the spread of fire from floor to floor. Standpipes kept under high water pressure with ample hose attached will be common. Automatic sprinklers and chemical fire-extinguishers will be everywhere. Furniture will be of steel or bronze, so far as may be practicable. Hotels, apartments, schools, colleges, hospitals, theatres and all public halls will be as safe as modern ingenuity can make them. Warehouses and factories will have to take particular precautions, especially where highly inflammable contents are on the premises.

So constructed and equipped the future city will be unburnable. Its insurance rates will be the lowest ever known because fire underwriters will be the first to encourage, as they are now doing, the universal adoption of every possible precaution against fire. The clanging bells of fire engines will seldom be heard, as the equipment of each structure will generally be sufficient to check any blaze that may start in it. Such a city can be built easily enough. But even the authorities of San Francisco with blackened ruins still lying about them are failing to seize the opportunity afforded them and are allowing buildings of the very type which the fire completely destroyed to go up again. In the regulations just issued there is nothing to prevent the same kind of construction that was so prevalent in the old city. This is discouraging to those who look for the coming of the fireproof era, but the era will nevertheless eventually arrive.

## Rapid Transit Routes.

### THE NINETEEN SYSTEMS APPROVED BY THE CITY, TOGETHER WITH THE ELECTRIC LINES BUILDING FOR PRIVATE CORPORATIONS.

This being the season when the public manifests most interests in suburban real estate affairs, a consideration of the rapid transit situation is in order, and, for that matter, an investigation into the actual facts would be a wise preliminary for any one intending to invest or speculate in lands outside of the Borough of Manhattan. It can be taken for granted that New York is going to spread out like London. For 30 miles around all will sometime be New York, no matter what the several districts or towns may be called locally. Long Island, New Rochelle, White Plains and Morristown will be as much New York as Yonkers, Mount Vernon and the Jersey shore are already. Compression has reached its limitations; its effects upon the family life are becoming very apparent, and the horoscope foretells a return to private house building, which now of course must be in the "suburbs"—but this is where it always has been. Bloomingdale was in the outskirts when it was the scene of private house construction, and afterwards Harlem.

The successive changes from stage coach to horse car, then to the steam elevated, and subsequently to the trolley, were each and every one the cause rather than the consequence of real estate expansion, and the present change from steam to the electrified rail, on rapid transit lines, would be an exceptional case in history if it were not accompanied by a great real estate expansion. Any one doing business in New York must expect to travel a great deal. Home and office within walking distance of each other means either living in a congested center or that the office is in one of the outer zones and not in the old "city." How much time can be spent on the road varies with individuals. Thousands upon thousands of Manhattan office men have their homes outside of Greater New York, and some travel a hundred miles daily, and have continued to do so for many years. Asked how they can stand it, they say they do not care for living in the city; that it is a good place to do business in but uncomfortable to live in if one wishes to maintain a family home; and as more or less traveling is necessary they prefer to ride a few miles farther every day and have a home worth the while. To bring home and office nearer together is the work the municipal government has set itself to do, while certain railroad corporations are taking up the same work for those who live beyond the city bounds.

#### THIRD-RAIL LINES.

(a) Thus we have the New York and Portchester Company equipped no longer ago than last week with permission to construct a four-track electric high speed railroad from a connection with the subway northeastwardly through the Bronx to Mount Vernon, New Rochelle and beyond, with a branch to White Plains. For a small commutation fare this road will bring almost every willing commuter in the East Bronx and the eastern part of Westchester County not merely to New York City, but to any part of the city, by reason of its connection with the subway. In the future the company will undoubtedly extend its lines farther to the north and east.

(b) The electrification of the New York Central and the Harlem, to proceed gradually over all divisions. The effect will be to increase the speed and lengthen the commutation area, but the lines end at the Grand Central Depot, and a change to the subway, with an additional fare, will be required in order to reach the financial district.

(c) The electrification of the New Haven system will increase speed and lengthen the commutation area. Passengers will be discharged at the new Pennsylvania Depot, in Manhattan, instead of at the Grand Central Depot as now.

(d) Electrification of the Long Island Railroad. This will bring passengers into connection with the city's subway line at the Flatbush av terminal in Brooklyn.

(e) Construction of the Belmont Rapid Transit road, between 42d st (and Park av) and Hempstead, L. I., including a tunnel under the East River.

(f) Extending the Pennsylvania lines to and across Manhattan Island by means of tunnels.

(g) Two tunnels under the Hudson, for trolley service, one ending at Dey and Church sts and the other at Greeley square, both now closely associated with Pennsylvania interests. They will make the Jersey shore largely independent of ferries. It is understood that the Erie and the Lackawanna at least will have connections with these tunnels.

#### PROPOSED SUBWAY LINES IN GREATER NEW YORK.

(1) Contemplated by the plans of the Rapid Transit Commission are nineteen different routes or systems, not all to be worked out simultaneously, because it would be beyond the borrowing capacity of the city, but as opportunity offers. Of the routes in Manhattan the Lexington av line begins with a short spur from the existing subway at Park av and 42d st, from which spur, or from 43d st and Lexington av, there will be a four-track road to 129th st, where it divides to form two double-track extensions. One will pass under the river and

extend to 156th st, and the other to a junction with the present subway at 149th st. Southerly from 43d st there will be four tracks to 36th st, to 5th av and then south. The two north-bound tracks will continue down Lexington av to 35th st and rejoin the others in 5th av. The four tracks will then continue southerly along 5th av to Madison square, to Broadway, passing under Union square to City Hall Park. From here two tracks will continue down to Vesey st, to Church, and then to the Battery.

(2) The 3d av route, starting from the Battery as a four-track road, divides at Pearl and Broad sts into two branches, one going up Pearl and New Bowery and the other up Nassau and Park row to Chatham st, where they reunite, and proceed up 3d av to and under the Harlem. North of the river the road divides into two arms, one going to a terminus in the yards of the N. Y., N. H. & Hartford Railroad, and the other pair of tracks going into a loop at 142d st and connecting with a proposed line under 138th st.

(3) A west side route begins at the Battery and runs under Greenwich st and West Broadway to Hudson, to 8th av, to 154th st. An alternative is to go from West Broadway to Washington sq, to 7th av, to Times square, to a connection with the present subway. Or, under Washington square and 5th av to 23d st, then under Broadway to 25th st, there to diverge again, two tracks running westerly under 25th st to meet the 7th av subway and so northerly to Times square, and the main line continuing on under Broadway to join present subway near the same place. A separate section of this route runs northerly from 7th av and 43d st to Central Park, curving under the park so as to connect with the line under 8th av near 52d st.

(4) The 1st av route, beginning at the Battery, runs from Greenwich st, under Battery pl and Bowling Green to Beaver st, to Pine; thence under private property to Water st, to Pearl, to New Bowery, to Madison, to Rutgers, to Essex, to 1st st, to 1st av, to and under the Harlem River to Alexander av, to 138th st.

(5) Beginning at the Battery, the "9th av line" runs up West st to Gansevoort, to 9th av, to Morningside Park, and thence under Amsterdam av to 211th st.

#### ROUTES IN THE BRONX.

(1) From 164th st, Bronx, a four-track subway up Jerome av to Woodlawn road. At 164th st there will be a connection with a two-track subway under the river to the 8th av subway in Manhattan, and also a spur to the Lexington av subway at 153d st.

(2) A three-track elevated road on Jerome av, from Clarke pl to Woodlawn road.

(3) The Gerard av subway begins at 138th st and 3d av, where connection can be made with several other lines, and runs west through 138th st and Gerard av to Jerome av near its intersection with Clarke pl.

(4) From 177th st, a three-track elevated line along West Farms road to Morris Park av, to White Plains road to the village of Wakefield.

(5) Beginning at 138th st, at 3d av, and running east under 3d av to the Southern Boulevard, and thence on the Southern Boulevard and Westchester av to the village of Westchester.

#### ROUTES IN BROOKLYN.

(1) Through 34th st, Manhattan, from the Hudson River eastward under the East River to Jackson av, near Borden av, in Long Island City.

(2) From East New York down Broadway to the Williamsburgh Bridge, across to Manhattan and down to Brooklyn Bridge, across and to City Hall Park (Brooklyn), to Lafayette and Gates av to Broadway, at place of beginning, constituting a great loop.

(3) Three tunnels from Brooklyn City Hall Park to New York: (a) the Old Slip tunnel, (b) the Maiden lane tunnel, and (c) the Beekman st tunnel, passing under Montague, Pineapple and Cranberry sts, respectively.

(4) From City Hall Park under Willoughby st, Flatbush av extension, Fulton st and Lafayette av, to Bedford, with a branch from here to Gates av to Broadway, the other line continuing in Lafayette av to Stuyvesant.

(5) From Fort Hamilton through 4th av to a connection at Flatbush av with the subway under construction.

(6) The Manhattan Bridge line, with a connection to the subway now under construction, and also to the loop line under Fulton st and Lafayette av.

(7) The Eastern Parkway line begins at Atlantic and Flatbush avs, and runs up Flatbush to the Prospect Park Plaza, and thence to East New York av, where a loop will start through Howard, Hunterfly, Blake, Georgia and Pitkin avs, with an extension from the Plaza along Flatbush av to Atlantic.

(8) The Brooklyn, Manhattan and Long Island City system consists of two lines, one from the Williamsburgh to the Blackwell's Island Bridge, and the other from Williamsburgh under the East River to 14th st, New York. The route includes two spurs, one from the corner of Stuyvesant and Lafayette avs under the latter, Stanhope st and Cypress av to Palmetto st; another, from the junction of Metropolitan av and North 7th

st along Union av to Broadway. Also a tunnel from Greenpoint to 14th st to 9th av, in New York.

(9) Beginning at Broadway, in East New York, and running to Grand st, in the village of Jamaica.

## Summary of the Recording Tax Law.

(From the New York Tax Reform Association.)

Article XIV. of the tax law as amended by Senate Bill 1388, approved by the Governor, May 22, 1906, provides as follows:

Sec. 290. DEFINITIONS.—" \* \* \* The words mortgage of real property as used in this article include every mortgage by which a lien is created over or imposed on real property or which affects the title to real property, notwithstanding that it may also be a lien on personal or other property or that personal or other property may form part of the security for the debt or debts secured by such mortgage. Executory contracts for the sale of real property under which the vendee has or is entitled to possession shall be deemed to be mortgages for the purposes of this article and shall be assessed at the amount unpaid on such contracts."

Sec. 291. EXEMPTION FROM LOCAL TAXATION.—All mortgages of real property situated within the State which are taxed by this article, and the debts and obligations which they secure, shall be exempt from other taxation.

Sec. 292. EXEMPTIONS.—No mortgage of real property situated within this State, recorded on or after the first day of July, 1906, shall be exempt from the taxes imposed by this article.

Sec. 293. RECORDING TAX.—"A tax of 50c. for each \$100 and each remaining major fraction thereof of principal debt or obligation which is, or under any contingency may be secured by mortgage of real property situated within the State recorded on or after the first day of July, 1906, is hereby imposed on each such mortgage, and shall be collected and paid as provided in this article."

Sec. 294. PAYMENT OF TAXES.—"The taxes imposed by this article shall be payable on the recording of each mortgage of real property subject to taxes thereunder. Such taxes shall be paid to the recording officer of any county in which the real property or any part thereof is situated. It shall be the duty of such recording officer to indorse upon each mortgage a receipt for the amount of the tax so paid. Any mortgage so indorsed may thereupon or thereafter be recorded by any recording officer and the receipt for such tax indorsed upon each mortgage shall be recorded therewith. The record of such receipt shall be conclusive proof that the amount of tax stated therein has been paid upon such mortgage."

Sec. 295. EFFECT OF NON-PAYMENT OF TAXES.—No mortgage can be recorded until the tax is paid and no mortgage on which the taxes imposed by this article have not been paid can be discharged of record or received in evidence or foreclosed.

Sec. 296. TRUST MORTGAGES.—In the case of mortgages made by corporations in trust to secure payment of bonds the tax may be paid on each installment of principal advanced at the time the advance is made.

Sec. 297. APPORTIONMENT BY STATE BOARD OF TAX COMMISSIONERS.—This section provides for the apportionment of the tax in case part of the mortgaged property is situated outside the State. The tax is apportioned upon the proportion of value of the mortgaged property within the State as compared with the total value of the entire mortgaged property.

Sec. 298. PAYMENT OVER AND DISTRIBUTION OF TAXES.—The law in regard to the distribution of taxes is unchanged and provides as in the existing law that half of the amount shall go to the State and half to the tax district in which the mortgaged property is situated.

Sections 299 and 300 provide for expenses of officers and for the supervising powers of the State Board of Tax Commissioners and State Comptroller.

Sec. 301. TAX ON PRIOR ADVANCE MORTGAGES.—"A tax is imposed hereby on each mortgage of real property recorded prior to the first day of July, 1906, when any part of the amount of principal indebtedness which is or under any contingency may be secured by any such mortgage is advanced, after first day of July, 1906. The tax imposed by this section shall be at the rate of fifty cents for each one hundred dollars and each remaining major fraction thereof which is, or under any contingency may be secured by any mortgage taxed under this section, deducting therefrom, however, any tax paid on such mortgage under chapter seven hundred and twenty-nine of the laws of 1905. The tax imposed by this section shall be paid to the recording officer of the county in which the mortgage is first recorded and shall be paid when at any time any part of the said amount of principal indebtedness is advanced after the first day of July, 1906."

This act shall take effect July 1, 1906.

The last section of the bill, which is Section 23, provides for the collection of all taxes which were imposed by the existing

law on any mortgage recorded prior to the first of July, 1906, in respect to any period ending on or before the first day of July.

#### EFFECT OF THE NEW LAW ON EXISTING MORTGAGES.

All mortgages hereafter recorded prior to the first day of July, 1906, will be subject to the existing law, and on such mortgages a tax must be paid at the time of recording at the rate of one-half of 1% up to and including the 30th day of June.

All mortgages heretofore or hereafter recorded prior to the

first day of July, 1906, will be subject to the general tax law after that date exactly in the same manner and to the same extent as they were before the first day of July, 1905. That is to say, all such mortgages will be taxable to the same extent as any other personal property. The personal property of each person is taxable at its full value after deducting the just debts owing by him. All such mortgages will be exempt from taxation when owned by a savings bank or other institution whose personal property is exempt from taxation.

## Mortgages Practically a Tax Exempt Security

New Law Will Ultimately Cause Money to Flow from Various Sources Into Mortgage Investments

By B. AYMAR SANDS

(President of the Allied Real Estate Interests)

**Y**OU have asked me to say something concerning the recent enactment of the law abolishing the annual tax on mortgages and substituting in place thereof a recording tax of one-half of one per cent. This topic is a very dry one, and I fear that it has been exhausted by its continued discussion in the public press while the measure was under discussion in the Legislature.

The enactment of this law permanently establishes, I believe, a principle of taxation which has been much discussed, and which has been earnestly desired for many years by the real estate people. It will, I think, greatly advantage both the owners of real estate and the lenders on mortgage, benefiting the former class by the reduction of the rate of interest, and the latter class by exempting their mortgage holdings from local taxation at the prevailing high rates.

The attractive features, however, of the new law will, in my opinion, be slow in working out their full effect, and those real estate people who are now jubilant over its passage must not be disappointed if its advantages are not immediately apparent. The general activity in all lines of business, and particularly the great speculation which is now prevailing in suburban lots, have created a long-continued stringency in the money market, and this has caused a large diminution in the supply of money available for mortgage investments. These conditions, however, will be rectified in time, and then, in my judgment, there will be a continued flow of money from various sources into real estate mortgages. This process, however, will be slow, and will result through the gradual appreciation of the advantages of this law by the investing public.

The rate of interest, however, will probably be lowered at once on long-time mortgages to the extent of one-half of one per cent., the amount of the existing annual tax, except in cases where the lender pays the tax and contracts to recoup himself by exacting one-half of one per cent. higher interest for the first year of the mortgage term.

Mortgages now practically become a tax-exempt security, and are placed on a par in that respect with Government, State, and Municipal bonds, and as they are likely to continue to pay a higher rate of interest than those classes of securities, the holders of the public debt will transfer their investments to mortgage securities. The great mass of public utility bonds still remains subject to local taxation, and those holders of this class of investments who are liable to personal taxation will be tempted to make the same change of investment.

Thousands of our wealthier citizens who have deserted their urban domiciles for the purpose of dodging taxes and escaping the high rates of local taxation can now invest their moneys in mortgages, and return to their homes without the fear of being subject to taxation, almost confiscatory in its nature. The State on the other hand will not be the loser, because under the old laws a very small percentage of mortgages were actually taxed, and the present law will, I think, produce a larger amount of taxes than those heretofore paid on all mortgages throughout the entire State.

There are provisions of the new law which will not be entirely satisfactory to the real estate community. Some of these provisions arose on account of the necessity of meeting the views of the Governor and the members of the Legislature, while others were caused by the attempt to include under one general system of taxation mortgages which varied in their terms, namely, short and long-term mortgages, instalment mortgages, and public utility mortgages made to trustees to secure issues of serial bonds. The substitution also of three systems of mortgage taxation within the period of a little over a year necessarily creates temporary annoyance and perplexities.

The feature of the law most subject to criticism is the provision taxing short-term and temporary mortgages at the same rate as long-term serial bonds, some running for a hundred years. The framers of this law discussed this phase from every point of view, but were unable to devise any scheme whereby this inequality could be avoided. If we could have prepared a bill for the purpose of imposing a recording tax upon ordinary real estate mortgages only, we could have devised means to prevent this inequality; but we were unfortunately prevented from doing so by reason of the necessity of including within the provisions of the bill the serial bonds secured by deeds of trust. These, while differing in form, are just as much mortgages as those made by individuals on real estate, and we were advised that it would have been unconstitutional to have applied this law only to real estate mortgages, and to have left the corporate mortgages, so-called, subject to local assessment for taxation.

The Legislature has at this session provided for the appointment of a commission to consider and revise the laws of the State relative to taxation, and it is possible that this commission may suggest some method to remedy this inequality.

Speaking for the Allied Real Estate Interests, of which I have the honor to be president, I might add that this association has conducted its campaign in favor of the enactment of this law from an educational and non-political point of view. Our agents traveled from place to place through the State, interviewing the leading men in each place and distributing our literature. We found that the press and the people generally were in thorough sympathy with our purposes. They only needed leadership and organization to make their wishes effective, and, through the crystallization of this public sentiment, we convinced a large majority of the members of the Legislature that our position was well taken. The present law was repealed and the new law enacted by the joint efforts of the members of the Legislature of both political parties; and to the representatives of both parties and to the Governor must be given full credit for their fairminded and intelligent consideration of this question.

The continued individual co-operation of the members of the Allied Real Estate Interests in our work has been of great service.

### When Recording Mortgages.

REMEMBER THAT MORTGAGES RECORDED PRIOR TO JULY 1, AS WELL AS ALL EXISTING MORTGAGES, WILL BE SUBJECT TO THE GENERAL TAX LAW AFTER THAT DATE.

By LAWSON PURDY.

The Page bill amending the mortgage tax law will take effect on the first day of July, and on and after that day a tax at the rate of 50 cents for each hundred dollars must be paid at the time of recording any mortgage affecting the title to real property in the State of New York. All mortgages recorded on and after July 1 will be exempt from all taxation save the recording tax. All existing mortgages and mortgages recorded prior to the first of July will be subject to the general tax law after that date, and will be taxable or exempt from taxation exactly as mortgages were prior to the first of July, 1905.

Many existing mortgages contain a provision that they shall become due and payable if there is any change in the tax law affecting them. If such mortgages are held by residents of the State in whose hands they will be taxable as personal property after July first it will be desirable before the next taxing day to have such mortgages paid off and new mortgages made.

While this will entail an expense on the borrower of a new search of the title and the payment of the recording tax, borrowers can generally obtain a reduction in the rate of interest of one-half of one per cent., which will compensate them for these expenses.

When a mortgage is recorded before July first and part of the principal sum is not advanced until after July first, the recording tax must be paid, at the time the advance is made after July first, on the entire amount of the mortgage, after deducting any tax paid prior to July first. Such mortgages will be exempt from other taxation.

#### EFFECT OF THE NEW LAW ON INTEREST RATES.

Borrowers in the State of New York have heretofore paid from two to six mills more in annual interest than has been paid under similar circumstances in the State of Massachusetts, where mortgages are exempt from taxation. Henceforth in New York State the only tax will be paid at the time the mortgage is made as a part of the expense for procuring the loan, and interest rates should be in the City of New York as much as two or three mills less on the average than they were prior to the first of last July, and in the rural counties the average rate should generally be from three to six mills less than it was prior to last July.

In Berkshire County, Massachusetts, which adjoins Columbia and Rensselaer Counties, New York, the average rate of interest on mortgage security in 1904 and 1905 was almost exactly 5%, more than three-quarters of the money loaned being at that rate. Right across the line in Columbia and Rensselaer Counties the average rate was three mills higher before the existing mortgage tax law went into effect, and has been 5 mills higher in Rensselaer County since that time and 7½ mills higher in Columbia County. There is no reason why Rensselaer County should not now enjoy as low a rate as Berkshire, and Columbia County very nearly as low a rate.

In Boston, where mortgages are exempt from taxation, about one-fifth of all money loaned in 1905 was loaned at 3½%. There is no reason why the City of New York should not enjoy as low a rate as Boston, and we may expect to see many large loans made at 3½%. In 1905 in Boston 41% of the money was loaned at less than 5%. If the Boston record is made comparable with that of New York by considering all loans at higher rates than 6% as made at 6% Boston shows an average rate of 4.73, which is considerably lower than New York ever had. Hereafter New York should have a lower rate than Boston.

### New System of Fireproof Residence Construction.

The recent disaster at San Francisco again shows the absolute necessity for incombustible or fireproof buildings, and lends additional force to the arguments in their favor. While the bamboo houses of Japan are perhaps the only type capable of successfully withstanding seismic shocks, structures reared of reinforced concrete are almost as resistive in that respect.

Unless the ground should cave in beneath buildings of the last named type, they would as successfully survive shocks as the Oriental structures. Reinforced concrete, used in conjunction with some good fire-resisting material, terra cotta, for instance, would certainly be fireproof, as experience has proven.

While fireproof construction is primarily essential in earthquake countries, it is not less so in thickly populated places free from such disturbances, as a reference to the newspapers

fireproofing material, but from its collapse. One of the best fire-resisting materials used in building construction is hollow terra cotta tile, whose fireproof qualities were strongly illustrated in the Baltimore conflagration. Investigation showed that although the mortar cement between the tiles had been destroyed, that granite blocks had exploded, and plaster had crumbled, the tiles themselves remained intact.

The strength of the tile is shown by the pressure under which it yields to crushing, 60 tons to the square foot, sufficient to warrant the Chicago building regulation which allows the substitution of a ten-inch hollow tile block for a twelve-inch solid

brick wall. Records made at the United States Government Arsenal, at Watertown, N. Y., show that while the greatest crushing strength of a hard brick column was 4,700 pounds per square inch, that of hollow terra cotta tile was 8,142 pounds.

When concrete is used in conjunction with terra cotta tile, a type of building construction is attained which is not only fireproof, but durable as well, its durability due to the concrete increasing year by year. Therefore, a system combining these two principals of fireproof construction would seem to be ideal. By the specialization of work, economy in office management, instant recourse to supplies and organization of labor, the excavations, foundations, walls, floors and partitions of the ordinary \$10,000 fireproof residence can be completed within a period of thirty days under this system.

The method of construction employed is as follows: The tiles are laid horizontally and are bonded as in a brick wall, special half and quarter size tiles being used in order to work out the correct length of wall. The interior partitions are bonded in with the exterior walls in such a manner that the whole of each story is completely tied together. The tiles are laid throughout with Portland cement.

Air spaces are provided to take up all moisture, thus saving the cost of furring and making it possible to apply plaster directly to the tiles. The saving in plastering, due to the absence of furring and lathing, is anywhere from 10 to 30 cents a square yard, as only two-coat work is required.

In going up to a story height, the tiles are levelled off to the proper height and the floor arches, consisting of alternate continuous rows or ribs of reinforced concrete beams and hollow terra cotta tiles, laid directly on the wall tile to within one inch of the outside face of the wall. An additional tie is obtained in

will show from day to day. Statistics indicate that, excluding the San Francisco fire, the property loss due to conflagrations in the United States this year, averages \$1,500,000 a day.

In a building constructed of incombustible materials, it is essential that the fireproofing be able to withstand rough usage. In the event of fire, damage to the structural parts will be serious if the fireproofing which surrounds them is dislodged, or yields to the action of fire or water. In such buildings, enduring qualities of both the fireproof material and its construction are as vital and important as its incombustibility. In the event of fire, the first danger is not from the combustion of the

this way. The next story is started directly on top of the floor arches and the same method repeated. The result is a solid fire and soundproof flooring, combining the advantages of both concrete and hollow terra cotta tile construction.

In reaching a roof, where the top floor is not near the roof rafters, special anchorage bolts are put in place for fastening the roof plates, in order to secure and stiffen the roof construction. The anchorage bolt passes from the roof rafters through the wall tiles to the reinforced concrete beam, in which it is imbedded. This makes practically a monolith of the wall, floor and roof, the strongest possible form of construction.

WALTER MUELLER.

# THE REALM OF BUILDING.

## Building Operations.

### To Renovate Fifth Avenue Residence.

5TH AV.—James McWalters, 22 East 31st st, has just obtained the general contract to improve and renovate No. 844 5th av, the residence belonging to John Jacob Astor. A rear extension will be erected, and the general interior will be altered at a cost of about \$50,000. Charles A. Platt, 36 East 20th st, is architect.

### New Figures on Hoffman House Plans.

BROADWAY.—Architect R. L. Daus, 130 Fulton st, is taking new figures on the general contract for the new 12-sty hotel to be erected in connection with the Hoffman House, at the northwest corner of Broadway and 24th st, fronting 49.3 ft on Broadway, with a wing in 24th st having a frontage of 47.2½ ft in that st. Francis S. Kinney, of 135 Broadway, is now owner of the Hoffman House. (See issues Oct. 28 and Nov. 11, 1905.)

### Carrere & Hastings Win Competition for Central Park Theatre.

CENTRAL PARK WEST.—The award in competition was made the past week to Messrs. Carrere & Hastings, No. 28 East 41st st, from preliminary sketches submitted, for the new theatre building to be built in Central Park West, the whole block front between 62d and 63d sts and Broadway, by "The Theatre Company" for the uplifting of dramatic art, of which Charles T. Barney is president. The structure will be built of stone, and will cost nearly \$2,000,000. For complete list of names of those competing, see issue of March 17, 1906.

### Million Dollar Apartment House for Madison Av.

MADISON AV.—Messrs. Harde & Short, Nos. 3-5 West 29th st, have been commissioned to design plans and specifications for a 10-sty high class elevator apartment house, 100.5x82.11 ft., to be situated on the northeast corner of Madison av and 66th st, on a plot 100.5x100 ft. It is estimated that the structure will cost about \$1,000,000. There will be apartments for 41 families arranged in suits for housekeeping purpose. The exterior will be of light brick, limestone, terra cotta and fine ornamental iron work. The interior will contain electric elevators, steam heat, marble tile, mosaic and hard wood finish. The Parkview Company, No. 200 West 57th st, are the owners. No sub-contracts have yet been issued.

### The Reade-Duane Storage Project.

WEST ST.—Wm. B. Tubby & Bro., 81 Fulton st, informs the Record and Guide that plans will be ready for general contractors in about three or four weeks time for the 14-sty cold storage building, which a syndicate headed by John R. Bartlett, of No. 2 Wall st, is to build on the block fronting 70.7 ft. on West st, 266.8 ft. on Reade st, 70.8 ft. on Washington st and 270.3 ft. on Duane st. Subscriptions are now being received, and the organization will be known as the Reade-Duane Cold Storage Co. Although all details of construction are yet indefinite, the present plan is to erect a building having stores and basements suitable to the fruit and cold storage produce business. The plant will be the largest and best equipped cold storage structure in this country, the stories above the first containing some 2,000,000 cubic feet of space, will be fitted with refrigerating devices. The estimated cost of the building is about \$1,000,000. Mr. Tubby states that no contracts have yet been awarded, and that he will receive all bids.

## BUILDING NOTES

A salesman familiar with the waterproofing and roofing business is wanted. Address Box 96, Record and Guide.

George A. Lund has accepted the position of contracting manager with Post & McCord, steel contractors, New York.

About July 1 the cornerstone of the new Academy of Music, at Lafayette av, Ashland pl and St. Felix st, Brooklyn, will be laid.

Superintendent of Buildings Edward S. Murphy has issued an order requiring certain manufacturers of dumbwaiter partition blocks to stand a reinspection and test.

A dispatch from Oakland announces that 250 architects and draughtsmen have arrived there in response to the call for their services, and that most of them are idle and disgusted.

The Thompson-Starrett Co. will keep a full working force of engineers and draughtsmen at San Francisco, as the firm intends to take an active part in the rebuilding of the city.

Excavating for the new \$500,000 house for John D. Rockefeller to be erected on his estate on Pocantico Hills, Tarrytown, N. Y., was commenced on Monday last. The structure will be 130x80 ft in size, Colonial architecture, 6-stys high on the north side and 3-stys on the south side. The material will be of rough stone.

F. L. Newell, stationary and marine engineer, has opened an office at 5 Beekman st. Mr. Newell makes a specialty of designing and superintending power and light equipments for building work. He is also city special agent for the "Foster" valve specialties for regulating steam, air, gas or water. These valves have many important improvements, and are very efficient. The valves are used in connection with heating, refrigeration, and, in fact, any service where pressures are required to be reduced to some lower point. The new class "G" valves are accurate to a fraction of a pound. Telephone, 8697 Cortlandt.

Brickyard strikes have served to lessen the supply of brick, and consequently to maintain prices for the best grades. About one-quarter of the yards on the Hudson River are idle, but the others are working full force and making money. The manufacturers affected by the strikes are willing to concede practically all the demands of the strikers except recognition of the union organization the laborers have set up. The situation is made interesting by the fact that while three-fourths of the yards are marketing all they can produce at high prices, the other fourth are missing the good market, and are beginning to feel uncomfortable. Both the strikers and the employers at Fishkill are holding out stubbornly. This is where the war began. The Haverstraw, New Windsor and Roseton yards have never ceased operations. After an interval of war and idleness work has been resumed at Verplancks, Coeymans and at some up-river places, and at Kingston and Stockport strikes are still on.

### Labor Notes.

A large number of firms, the Brotherhood of Painters, Decorators and Paperhangers announce they have signed the new wage schedule, which increases the pay of plain painters from \$3.50 to \$4; fancy painters from \$4 to \$4.50, and makes the wages for paperhangers on piece work approximately \$6 a day. Nearly all of the 7,000 members of the Brotherhood have been registered at headquarters, 42d st and 8th av. The Board of Arbitration has ordered the strikers back to work at the existing wage scale, pending arbitration.

Bricklayers who are charged with violating the arbitration agreement by striking on a new apartment house at 86th st and Central Park West against the employment of members of the

new union of plasterers, hold that as they are employed by an independent contractor they are not in violation of the arbitration agreement. Bickerings between dual unions continue to cause trouble on the new Custom House, and latterly the sheet metal workers are involved.

### Personals.

The modesty of Senator Alfred R. Page must have been put to a severe test on Thursday night at the dinner given in his honor at Delmonico's. Irrespective of party, men of all shades of political opinion joined in eulogizing his work in the Legislature. It must have been especially gratifying to Senator Page to receive such praise as that bestowed by Charles E. Hughes, whose own recent work in defending the rights of the people against the insurance-grafters has made his name a household word.

A reception will be tendered B. Aymar Sands, Esq., at the Lawyers' Club, No. 120 Broadway, New York, on Tuesday, May 29, 1906, at 3 P. M., in recognition of his great services in connection with the repeal of the Annual Mortgage Tax Law. Committee: Alfred E. Marling, Chairman; Charles T. Barney, A. W. McLaughlin, Edmund L. Baylies, George R. Read, Jos. L. Buttenwieser, Douglas Robinson, Wm. H. Chesebrough, Allan Robinson, Robert W. de Forest, Noah C. Rogers, John N. Golding, Frederick A. Snow, Francis B. Harrison, Lawrence Veiller, Francis M. Jencks, Alfred L. White, Allen L. Mordecai.

More than five hundred people attended the birthday dinner at the Harlem Casino last Tuesday night, given to John F. Cowan, Esq., president of the Aqueduct Board and former Deputy Police Commissioner. A solid silver service of 340 pieces was presented to Mr. Cowan in behalf of his many friends in the 34th Assembly District. In returning thanks for this tribute of affection Mr. Cowan was deeply moved. Comptroller Herman A. Metz made an eloquent and forcible speech, and applied a very caustic castigation to the "reformers" as compared with organization men. He also dwelt at length upon Mr. Cowan's good qualities and abilities, and his remarks were received with much applause. Other speakers were Judge George F. Roesch, Rev. Dr. Francis J. Wall, Eugene J. McGuire and former Attorney General John Cuneen. Among those present were Judge Otto A. Rosalsky, Judge Matthew P. Breen, Judge Samuel Seabury, Deputy Water Commissioner Frank H. Goodwin, Thomas F. Smith, secretary of Tammany Hall; Building Commissioner Edward Murphy, Peter A. Hendrick, Samuel Strasbourger, Judge John J. Ryan, Sheriff Nicholas Hayes, Commissioner Francis Lantry, Joseph W. Savage, secretary of the Dock Board; Civil Service Commissioner Alfred J. Tally, Patrick F. Tracy, Civil Service Commissioner Richard A. Baker, Clinton W. Sweet, Charles J. O'Brien, Senator John A. Hawkins, Judge Joseph P. Fallon, Coroner Julius Harburger, Judge Thomas F. McAvoy, former Judge Edward O'Dwyer, John F. Curry, Maurice Quinlan, John Vesey, Cornelius J. Hayes, Frank O'Brien, J. Waldo Smith, William H. Burr and many other prominent men. John T. Meehan, the well known restaurateur of Park row, managed the affair, which was exceedingly pleasant and enjoyable in all of its parts. Throughout the dinner, which was of many courses, a number of vaudeville artists entertained the guests. On the whole the occasion was a very remarkable demonstration for Judge Cowan.

### Filter Beds at Jerome Park Reservoir.

The Commissioner of Water Supply, Gas and Electricity has been authorized to employ experts to examine in detail the entire Croton Watershed, the reservoirs and the distribution system, with a view to the selection of the very best site for the construction of a filter plant, and to prepare plans and specifications for proper execution of the work. While the question of filtering the Croton supply is not acute, it is coming to be admitted by those familiar with the water works that it will eventually be necessary to filter the entire flow.

In the course of the investigation for filter sites, for a low-level supply—that is, for delivering water at the height of Jerome Park reservoir—by the Burr-Herring-Freeman Commission, an examination was made of all the available sites below the present Croton shed, and only two were considered available, and in either case the installation would be attended with great difficulties. These two sites were at Gould's Meadows and Elmsford. Chief Engineer de Varona believes, however, that it may be practicable to build the proposed filter beds above the eastern division, not yet built, of the Jerome Park reservoir, using the roof of the latter, when covered, as the bed of the filters, in which case, in addition to other advantages, a very large saving in cost (including that of the extensive tract of land otherwise required), would be effected, tedious and expensive condemnation proceedings avoided, and the time required for the completion of the work materially shortened.

Johnny Miles sold through his agent, E. Nelson Ehrhart, an apartment house in Bedford Park, on the Southern Boulevard, near Webster av, held at \$30,000, 2 stores and 6 apartments, on a plot 40x115.

## Why the Westchester Was Turned Down.

For a year or more it has been a mere guess for the general public as to whether the Portchester or the Westchester would win out. Eventually the case was decided on its actual merits. For nearly two years the Westchester has had a franchise from East 177th st to Mount Vernon, granted on the stipulation that it would do a certain amount of work within a specified time. The period being nearly up, with no possibility of the Westchester being able to carry out its agreements, the New York City authorities have concluded to give the Portchester company an opportunity to show its good faith also.

The projected main line runs from 143d st to Portchester, with branches to Classon Point and White Plains, and the scheme was heartily supported from the first by Bronx real estate interests, though opinion became somewhat divided when the Westchester company reappeared, and thereafter each had its champions. Those who bought or contracted to buy land on the route of the Westchester, as many did, feel a certain disappointment. Each side had "tips" that it would win.

The actual merits of the case are no doubt very fairly set forth in a report which a committee of the New Rochelle Board of Aldermen has just made, adversely to the petition of the Westchester company, for permission to build a road through the city. The committee proceeded on the basis that the franchise applied for should not be granted, unless it were established beyond any doubt that the applicant could and would, within a reasonable period of time, construct and place in operation a railroad connecting New Rochelle with some of the rapid transit railway systems of New York City.

The total length of the Westchester's proposed route in the Bronx is 16.9 miles, or 89,232 ft, on which only relatively a small amount of grading has been done on a right-of-way aggregating 81,000 ft. in length. Of the total length of route between East 177th st and Mount Vernon, 24,000 ft, a distance of 9,100 ft are held by interests antagonistic to the Westchester, namely: Morris Park, 3,000 ft; Astors, 3,500 ft; Foley, 450 ft; Halsey, 1,400 ft; Van Gaasbeck, 800 ft. The applicant admitted at the public hearing on April 30, 1906, that it had not yet acquired 50 per cent. (only about 12,000 ft) of its right-of-way between East 177th st and Mount Vernon, notwithstanding that it has had its New York franchise for 21 months. The committee could not ascertain that the applicant had secured any right-of-way between New Rochelle and Portchester, and it seemed clear to the committee that the applicant is a long way from being able to construct a railroad connecting New Rochelle with Manhattan Island.

The New York, Westchester & Boston accepted a franchise from New York City on August 2, 1904, wherein it agreed to do \$1,000,000 of actual construction, exclusive of any cost for real estate, in two years, or forfeit its franchise. The two years expire August 2, 1906. To the present time the applicant has not done \$100,000 worth of actual construction in the Bronx, in consequence of which its New York franchise is, by its terms, subject to forfeiture next August.

Chas. H. Schnelle reports the sale of ten lots on Tibbits av, White Plains, to the Gebele Realty and Construction Co., upon which they will erect 224 two-family houses.

Messrs. Parish, Fisher & Co. will sell at auction in the Real Estate Salesroom, 14-16 Vesey st, on May 29, the Dickinson estate, consisting of 369 lots situated on Jerome av, Moshulu Parkway, Van Cortlandt Park South, Gun Hill road, Kossuth pl, DeKalb av, Steuben av, Gates pl, Knox pl and East 208th and 210th sts. The advantages of these lots for building purposes cannot be fully appreciated without personal inspection. The terms are 10 per cent. down, balance in thirty days; or 65 per cent. may remain on mortgage at 5 per cent., and titles are insured free to buyers. Maps and particulars may be obtained of the auctioneers, at 149 Broadway.

H. C. Mapes & Co., auctioneers, will sell on Saturday, June 2, at 1 p. m., the 345 lots known as the St. Joseph's Orphan Asylum property, on the shore of Pelham Bay, situated on the Town Dock road and Pelham Bay, opposite Lohbauer's Park and the Westchester Country Club, and south of Pelham Bay Park. This auction sale will take place on the grounds. The surroundings are noted for their beauty, and are often referred to as the Riverside Drive District of the Bronx. These lots are within five minutes' walk of the trolley cars at Throggs Neck road and Eastern Boulevard, and wholesome restrictions make them particularly desirable. Terms are easy, and a policy of title insurance will be given free to each purchaser. Maps and particulars may be obtained of the auctioneers at 55 Liberty st.

Jere Johnson, Jr., Co. will sell at auction, Tuesday, June 5, at 12 o'clock noon, in the Brooklyn Real Estate Exchange, 189 Montague st, 190 lots, including eight model 2-family brick houses, situated on 1st, 2d and 3d avs, 67th, Senator and 68th sts, Wakeman and Sedgwick places. In the best and most accessible part of Bay Ridge, directly opposite Owl's Head, or the Bliss property, for the acquisition of which as a public park the city has just started condemnation proceedings, and also opposite Bay Ridge Parkway, or Shore Drive. Expensive cement sidewalks and curbs have been laid on most of the lots at the sellers' expense. 75% on mortgage at 5%. Interest if desired. Property carefully restricted. Titles insured by the Title Guarantee & Trust Co., without expense to purchasers. Illustrated maps from Jere Johnson, Jr., Co., 211 Montague st, Brooklyn; 187 Broadway, New York.

### Ready for Delivery.

The Record and Guide Quarterly, covering the period between January 1 and March 31, 1906, is now ready for delivery. In addition to the record matter which this publication has always contained, there has been added to the Conveyances the grantee's address, and under each Mortgage will be found the name and address of the attorney loaning the money, making this publication an invaluable real estate directory, which should be in every broker's office.

#### LEASES.

N. A. Berwin & Co. leased for the Wendell Building Co. to the Real Estate Owners Fire Insurance Co. the store 103-5 William st for a year.

G. Carlucci & Co. leased for Mr. Panish to a client the 6-sty new law tenement with stores, 428 East 117th st, for a term of 5 years, at an aggregate rental of \$28,500.

Albert B. Ashforth leased for a long term of years for William Waldorf Astor to Henry Corn the 3-sty dwelling at 2, 4 and 6 East 34th st, 52.7x98.9. The property abuts 341 to 347 5th av, which Mr. Corn recently leased from the Chanler estate, and on which he intends to erect an 18-sty store and office building. Mr. Corn will improve the 34th st plot in connection with the 5th av property.

## REAL ESTATE NOTES

Great doings in lots.

Consumers in Brooklyn will get their gas for the 80-cent rate right off, without waiting for court decisions.

N. A. Berwin & Co. sold for Daniel W. Richman the property adjoining the City Hall Park of Passaic, N. J., comprising about three acres, to Mr. Anton Ehmman for investment.

Baum & Holahan, a new firm of real estate brokers, have opened offices at 129 West 125th st. They are prepared to do a general real estate business, having every facility for rendering prompt service.

Ronald H. Macdonald & Co., real estate and rental brokers, have moved their offices from 5 West 31st st to the new office building, 29 West 34th st, where they are now occupying a suite on the sixth floor.

The Miller Realty Co., 159 West 143d st, has two choice lots for sale on Hamilton pl, 139th st and 140th st, Washington Heights. The plots are ready for immediate improvement. Liberal terms will be made to a quick buyer.

Trolley cars are now running over the Westchester av bridge to Unionport, for the first time in seven years. During the interim passengers had to get out and walk over. The broken link was the cause of depression in Unionport, now happily relieved.

Additional help in the Bureau of Street Openings is to be employed, and has been authorized, in connection with surveys of the territory in the Borough of Manhattan, north of Dyckman st and west of Broadway to the Harlem Ship Canal and Hudson River.

The Staten Island Realty & Construction Co., organized by clients of the firm of Cuzzo & Gagliano Co., is going to operate in Staten Island real estate and will develop large tracts of land and build strictly up-to-date one and two-family dwellings having every convenience.

Harvey M. Ferris and Robt. J. S. White sold to a Manhattan syndicate 50 acres at East Rockaway, part of the estate of N. Jordan, former Assistant Treasurer of the U. S. Treasury, for close to \$100,000. The property is just back of Long Beach, and will be developed immediately.

Bryan L. Kennelly and the Anderson Realty Co. of Mount Vernon sold for George H. Primrose and Emma West the tract known as the Primrose & West property, on California road, consisting of about 50 acres adjoining the residence of the late James A. Bailey, at Corcoran Manor, Mount Vernon. The buyer is Aaron Weinberger, representing a syndicate, and the price is said to have been about \$200,000.

Frederick Southack and Alwin Ball, Jr., have resigned from the offices of president and vice-president, respectively, of the Alliance Realty Co. The resignations were accepted. The directors then elected William H. Chesebrough president of the company, the other officers being Walter T. Rosen, vice-president, and John Carlsen, secretary and treasurer. Messrs. Southack and Ball resigned also from the executive committee but remain as members of the board of directors.

At a meeting of the board of directors of the Alliance Realty Company Frederick Southack and Alwin Ball, Jr., resigned from the offices of president and vice-president, respectively. The directors elected William H. Chesebrough president of the company, the other officers being Walter T. Rosen, vice-president, and John Carlsen, secretary and treasurer. Messrs. Southack and Ball resigned also from the executive committee, but remain as members of the board of directors.

W. T. Crook, 1133 Broadway, is placing on the market a combined garbage crematory and water heater—a machine which utilizes garbage for fuel in such a way that it will save 40%

in the cost of heating water for an ordinary apartment or tenement house. Mr. Crook will place one of his machines on trial in the building of any reputable person free, and if it will not save from 40 to 60% of the coal bill, and at the same time consume all the garbage generated by the house, he will remove it without cost to the owner.

Indications of a lessening of interest in real estate affairs on the part of the Brooklyn public are probably attributable more to the "Mortgage Tax Law," now happily to be superseded by a simple recording tax, than to disappointment over the delays in rapid transit construction, though the tunnel revelations of last week are having their effect. In certain classes of building there is a probability of overproduction. Building loans are less easily obtainable, and some lending concerns have been shutting down on them altogether. A better feeling is now expected, in

home seekers wanted them all. Prices averaged about \$800 per lot, and the total sum realized exceeded \$260,000.

Joseph P. Day also conducted a successful sale of business properties belonging to the estate of the late Henry Hughes, who was a Democratic leader, an Alderman and a Speedway Commissioner. Detailed results of this offering will be found elsewhere.

At Mr. Kennelly's sale of the Drake estate on Wednesday the sum of \$548,000 was contracted for. The tract comprised 174 lots. The lots fronting on Broadway brought on an average a little over \$9,000 each. At the rear, on Park Terrace East \$4,000 a lot was paid. Three lots at the southwest corner of 217th st and Park Terrace West were sold for \$9,500, while adjoining lots on Park Terrace West, each 25x150, were struck down for \$4,000 each. consequence of the new Recording Tax, especially after July 1. The Allied Real Estate Interests advise that mortgages should not be recorded until after July 1, to be certain of exemption. Lewis H. Losee, manager of the Brooklyn office of the Lawyers' Title Insurance & Trust Co., says that for the present he thinks Brooklyn has plenty of houses to accommodate the population and the increase of the near future. "Of course, there are always opportunities for conservative building, and such enterprises we are willing to back with loans, either temporarily or permanent," added Mr. Losee. "While the demand has ceased for high-grade one-family dwellings, it seems to me that the number of high-class buildings has increased. Various conditions have worked to change the demand for one-family dwellings to two-family dwellings and apartments. The two-family dwelling is the coming typical residence in this borough and the suburbs, apartments are being erected in large numbers, but they do not appeal to me as the ideal or representative home life."

#### Great Week for Lots.

This has been a remarkable week for the lot market. Three big sales crowded the Vesey st salesroom on as many days and the utmost interest was evinced in suburban property. At Mr. Parish's sale on Tuesday the throng did not dissolve until nine o'clock at night, and until every one of the three hundred and thirty-six pieces were sold. Mr. Parish must surely have thrown a spell over them. The sale had been admirably arranged for and the results were shown in the good prices realized. Brokers who came to pick up bargains returned disappointed, for the

offered, that bounded by Seaman and Isham avs, 215th and 218th sts, prices ranged from \$2,400 to \$3,500 a lot. Thomas Dwyer, a builder, took the old Seaman mansion, with about twenty lots surrounding it, for \$69,100. Ex-Deputy Commissioner Thomas F. McAvoy paid \$3,500 for the block front on the south side of 215th st, between Park Terrace West and Seaman av, a plot of eight lots, upon which stands an old stone stable.

On Thursday John S. Mapes sold 144 lots of the 215 he offered for the managers of the Catholic Protectory. The remaining seventy-one lots being mostly on Westchester and Tremont avs, which included nine corners, were withdrawn. Prices ranged from \$520 to \$5,150 a lot.

#### Great Activity in Flushing Lots.

Almost three hundred lots were sold on Saturday and Sunday and Monday at Broadway, Flushing. Saturday was the opening day.

A very sensational move was made Sunday by John J. Halleran and T. Jefferson Burnett, the Flushing real estate agents who bought in under the name of Arthur W. Peace, of 325 Park pl, Brooklyn, 104 lots, which were the cream of the tract, being all the unsold frontage on Broadway from 22d to 16th st, and on 22d st from Broadway to State st on both sides of the street. This represented a transaction of about \$98,000. The single banner sale thus far was consummated on Monday by F. B. McKenna, of Flushing, who sold to John Geddes, Edward Martin and C. F. Potter forty lots on 22d st, north of State st, for \$24,000.

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by  
the name of the grantee, they mean as follows;

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed  
wherein all the right, title and interest of the grantor is conveyed,  
omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor  
only, in which he covenants that he hath not done any act whereby  
the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein  
although the seller makes no expressed consideration, and thus im-  
pliedly claims to be the owner of it. The street or avenue num-  
bers given in these lists are, in all cases, taken from the insurance  
maps when they are not mentioned in the deeds. The numbers, it  
will occasionally be found, do not correspond with the existing ones,  
owing to there having been no official designation made of them by  
the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second  
date is the date of filing same. When both dates are the same, only  
one is given.

5th.—The figures in each conveyance, thus, 2;482—10, denote that  
the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that  
the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the  
property, the first figures being for the lot only, and the second fig-  
ures representing both lot and building. Letter P before second fig-  
ure indicates that the property is assessed as in course of con-  
struction.

## MORTGAGES

NOTE.—The arrangement of this list is as follows; The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

May 18, 19, 21, 22, 23 and 24.

### JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments. The Judgments filed against corporations, etc., will be found at the end of the list.

**S**TOCKS and the stock market are acting pretty much as have been indicated recently in these columns. Wall Street still drifts and is dull, but obtains an appearance of strength from sporadic advances here and there. Reading was the feature last week and Tennessee Coal and Iron and St. Paul give some evidence of strength this week. It is altogether too true that there is no public in the market, but, given a sharp advance all along the line, a public following may be relied upon. It is all very well to say that commission house customers were crippled or cleaned out in what will be known as "the San Francisco panic," but the cripples will stay in the game to recoup themselves, and those who were cleaned out become touters to secure new blood. The players may die, but the Wall Street game goes on forever with increasing rather than lessening intensity. That money will be easy seems now assured. The banks and all lenders had settled down to the belief that the end of May would see high rates. Instead of which they have been easy and presage still easier money for June. When brokers see a profit in the interest account they are apt to urge customers to buy stocks, and customers seeing these scattering advances are in a receptive condition for the tip as to the next one marked for movement upward.

**C**ROPS are being closely watched from Wall Street and reference to the situation is seasonable. There are and will always be complaints about the weather. The fact is, however, that the weather this season taken as a whole has been extremely favorable all over the country. There is no reason yet to expect other than big crops of all the staples, particularly cotton—our great exchange maker, its export value in the past year averaging about one and a quarter million dollars a day. It was only a few years ago when the average commercial value of the cotton crop of this country was \$300,000,000 a year. That was before the utilization of the cotton seed. Now cotton and its by-products approximate in value nearly nine hundred millions or three times as much as formerly. No wonder the South is growing rich and its feeble single-track roads of a decade ago are now being double-tracked and reconstructed to the highest standard of the North. The shares of all Southern railroads will be heard from in the next great advance and it is highly probable that profits are to be made in all low-priced railroad issues, as presenting the cheapest form of improved real estate. There might possibly be a sectional failure of some of the cereals, but it has been repeatedly demonstrated that in such a case larger railroad earnings of the agricultural roads frequently follow. As an illustration, if the corn crop in Kansas were a failure hogs would be shipped to Nebraska or Iowa to be fed for the market, or corn shipped into Kansas for feeding purposes, both movements constituting business additional to the normal traffic for the railroads of those States. The difference between normal and boom business for most railroads is only about ten per cent, consequently anything which causes them to earn one or two per cent over and above the ten per cent may be said to give them a boom.

**T**HERE have been three contributing elements to the growth of land values and of rentals on Manhattan Island during the past eight years. The first and perhaps principal one of these has been the general prosperity which has increased all business and residential requirements, by offering the opportunities for gratifying the latter and the necessity for extending the former. The City of New York, and particularly Manhattan Borough, has during the last few years attracted a large amount not only of the country's business but of some of the business of other countries as well. The chief railroads, for instance, having their principal offices in cities served by them, have generally moved to New York. The chief manufacturing concerns, wherever their factories may be situated, have their main offices here. The banking business of the United States is practically centered in New York, and there has been a large and important addition to New York's population from men of large wealth from other cities. The third reason for the increase of land values and rentals in Manhattan has been found in the larger utilization of the land, consequent upon the newer methods of building construction. Where, a few years ago, perhaps, a building devoted to a single residence would have a value of twenty-five thousand dollars—twelve thousand five hundred for the house and twelve thousand five hundred for the land—the same site may now furnish an opportunity for a new building renting on the basis of an investment of \$100,000 or over. As the opportunities for the use of a site are enhanced by the increase of the number of stories possible upon it, the value of the site itself is enhanced and this has carried up all Manhattan values in arrears available for improvements.

**B**UT the question is naturally being asked, is not the maximum commercial value of land in Manhattan being attained? Though the population of the borough is increasing, it is by no means increasing at so rapid a ratio as population is in the other boroughs, Brooklyn, The Bronx and Queens, in all three of which there is a marked boom in real estate values. The cost of material buildings is high; the wages of labor are unusually high and the rate of interest on money is generally higher than a year ago. The concentration of business interests in the city of New York may for a short time to come be less rapid than it has been recently, and while the steady increase of the city's bonded indebtedness is undoubtedly for the city's benefit, in development of the means of transit, the beautification of localities, the extension of conveniences and the improvement of sanitary conditions, the chief burden for these changes falls, and must continue to fall, upon Manhattan. Two-thirds of the real estate and more than four-fifths of the personal property assessed for taxation are within the Borough of Manhattan, and while, of course, all great improvements inure to the benefit of the city of New York generally, the temporary burden of their adoption falls chiefly and heavily upon Manhattan. All these considerations perhaps account for the slackening recently in some quarters at least, of the growth of values, though there are, of course, many sections of the city which have yet to secure their appropriate share in the benefits of the general improvement. Manhattan property values never go backward, but after active periods of boomed and booming values there has been known to be a cessation of increase, and we may be near one of those periods at present in the case of property that has advanced greatly during the last few years. Much, of course, will depend upon the general financial state of the country at large. A continuation of "bumper" crops accompanied by financial conservatism will necessarily prolong "good times" and continue the advance of real estate prices.

**I**N ORDER to develop this great city it daily becomes more apparent to real estate owners that additional rapid transit must be pushed without delay. The plans for the new subways are now before the public and it is gratifying this week to learn from Mayor McClellan's able message that a large amount can be borrowed this year for "special improvements." Thus if the city is called upon to build the projected subways in the event of capitalists refusing to invest their money under the short time operating periods of the Elsborg bill, it is in a position to raise the money needed. As far as real estate interests, and the welfare and convenience of New Yorkers generally are concerned, so long as the subways are built it is not important whether they are constructed by private or public funds. The demand for quick transportation throughout the city and its vicinity has become a question that is more urgent than all others. It would seem as if the present subway had only awakened the public to their needs and necessities in the way of transit—and had given a sort of fillip to their pressing

wants. Therefore the Mayor deserves the thanks of the community in calling attention to that which everybody desires and demonstrating the feasibility of the immediate construction of the new subways with city funds, should capitalists not wish to invest in the enterprises.

**A** BILL that was recently passed in the British House of Commons has attracted some attention from real estate owners in other countries. It is the Land Values Taxation Bill and applies to Scotland only. It is practically a first step towards the taxation of land values in Great Britain. The measure provides for the valuation of sites apart from the buildings there-

on and an imposition of 10 per cent on site values when ascertained. It was claimed by the Lord Advocate of Scotland that the reform was a social necessity. Its opponents declared that the bill would discourage the expenditure of capital and the good management of land. The great ground landlords of London, including the Dukes of Westminster, Norfolk, Portland, Bedford and others, are up in arms against the bill, although years might elapse before such a bill would affect their holdings in England. Certainly nothing of the kind is likely to enter into practical politics in this country in the immediate future, but it is interesting to record the passage of the measure as a curiosity in real estate legislation abroad.

## New Mortgage Law Will Be Popular

The President of the Allied Real Estate Interests Believes It Will Never Be Repealed—Reception at the Lawyers' Club

**M**R. SANDS delivered an impressive address on Tuesday afternoon, when a reception in his honor was given by the Lawyers' Club at their rooms in the Equitable Building. His remarks and the occasion which called them forth constituted a fitting and proper conclusion for the successful campaign of the Allied Real Estate Interests against the Annual Mortgage Tax. A large number of men prominently and especially identified with real estate, as well as members of the legal fraternity, were present, including Charles T. Barney, T. B. Ackerson, Douglas Robinson, William H. Chesebrough, Clarence H. Kelsey, Lawson Purdy, A. W. McLaughlin, Robert E. Dowling, Laton H. Slawson, Jesse C. Bennett, John N. Golding, Richard M. Montgomery, Albert Booth Cohn, J. Clarence Davies, Louis V. Bright, Jonas Weil, Jos. L. Buttenwieser, Allan Robinson, Robert W. de Forest, Noah C. Rogers, Frederick A. Snow, Francis B. Harrison, Lawrence Veiller, Francis M. Jencks, Alfred L. White, Allen L. Mordecai, Francis E. Ward, William Henry Folsom, J. W. White, ex-Supt. of Buildings Thompson, Edwin W. Coggeshall, Charles S. Brown, Thomas H. Baskerville, Benjamin Mordecai, Edward J. Hogan, Louis Schrag, Jacob Leitner, Charles P. Northrop and Clarence Ramsay.

Alfred E. Marling, presiding, introduced Judge William N. Cohen, counsel for the Allied Interests, who made an address of felicitation; and Mr. Marling also eloquently expressed the sentiments of the association when presenting the guest of honor with a great silver punch bowl, candelabra and glasses. He referred to Senator Page as the Grant of the campaign for mortgage tax repeal and to Mr. Sands as the Lincoln. President Sands in his reply spoke of some of the incidents of the struggle and gracefully acknowledged the labor of others:

"I thank you most heartily for these beautiful gifts," he said, "and only regret that I cannot find words to properly express my gratitude; I also thank you for the honor accorded me by the assemblage I see before me to-day. If I had the silver-tongued eloquence of my friends, Judge Cohen and Mr. Marling, I would express my gratitude in more appropriate phrases; but, as I have not their graciousness of speech, I must ask you to excuse my limitations and to take my thoughts for my words.

"But, as I listened to the compliments addressed to me just now, I felt that I was receiving more than my just due; I am only one of a number who, for the past year, have labored unceasingly in the cause of mortgage tax reform. This work though at times burdensome has been a labor of love, for we felt that our cause was a just one and that we would eventually succeed. Governor Higgins, our friends in both Houses of the Legislature, the officers, directors and members of the Allied Real Estate Interests have all co-operated in bringing about the satisfactory termination of our work. At the same time, and even at the risk of making invidious distinctions, I think it proper to single out and mention the names of three men whose services have been noteworthy in this cause: Edward Van Ingen, Lawson Purdy and Senator Page.

"Mr. Van Ingen was the leader selected to oppose the passage of the Annual Tax Law. When he was selected upon to represent us in this opposition, the handwriting of defeat was plainly seen written on the wall. He, however, consented to lead a forlorn hope, and through his great energy and resourcefulness we were almost successful in turning defeat into victory. By his untimely death last fall, as he was about to lead us in the second and successful campaign, the association lost an able and conscientious advocate. I regret that he cannot be with us now to share in the jubiliations of our victory.

"For years, Mr. Purdy has been sowing the seed of reform in mortgage taxation; his writings on the subject have been notable, and the literature which he has scattered broadcast through the State has made many converts to this cause. The passage of the obnoxious Annual Tax Law last year created a fitting opportunity to reap the harvest already sown by Mr.

Purdy. Our representatives traveled through the State from city to city, and everywhere received a cordial welcome. They soon discovered that everywhere we had the sympathy of the press and of the leading citizens, and that the only work left for us to accomplish was to concentrate and organize this sentiment so as to make it effective. With the press and the people with us, the conversion of a majority of the members of the Legislature to our views was a comparatively easy task. Our adversaries in the Legislature charged that we had created this sentiment—that it was artificial. How preposterous that such a result could have been brought about in this great State in less than three months by the circulation of our literature and the efforts of two representatives!

"Fortunately, we had in the Legislature many friends coming from all parts of the State, and particularly from the great City of New York, and these gentlemen through the entire session of the Legislature, under the able leadership of Senator Page, vigorously championed our cause. We all must admire the able, courageous and dignified manner in which Senator Page advocated the passage of this measure. He threw aside all his interests and took the chance of having his personal measures defeated through the antagonism which he might create by standing for the immediate passage of the Mortgage Tax Law. He was responsible for the sensational all-night session of the Senate, which will go down to history as a memorable event in legislative annals. He knew that the people of the State of New York demanded the passage of this bill at this session of the Legislature; he also knew that a large majority of their elected representatives were in favor of its passage, and he insisted that the will of the people should be carried out. He showed himself a public-spirited citizen, and a statesman of the first rank. He is a man who should be honored and distinguished for his public services. The real estate men owe to him and to those members who fought with him a great debt of gratitude. This fight was won through the action of the members of the Legislature, both Republican and Democrat alike, each acting for himself according to his best judgment. On the one hand, there was no dictation by party leaders, and on the other, there was no attempt made by any individual to offer his support from unworthy motives.

"Speaking for the association of which I have the honor to be president, I might add that this battle was cleanly and honestly fought. No appeal was made to popular prejudice or to party feeling, no money was spent for improper purposes, no single act was done which could be criticised by any person, no statement was made by the authority of the association which has been controverted. This organization was composed entirely of people directly interested in real estate, and its funds were derived solely through the dues and subscriptions of its members. It did not receive or solicit subscriptions from the corporate interests, and its work was not in any way influenced by such interests.

"I believe that the new law will be very popular, and that it will never be repealed. At the same time, it must be admitted that there is one feature which is apt to be criticised, and that is the provision taxing short-term bonds secured by mortgages on real estate at the same rate as the long-term corporate bonds, some running for a hundred years. The framers of this law considered this objection from every point of view, but were unable to devise any scheme whereby this inequality could be avoided. If we could have prepared a bill for the purpose of imposing a recording tax on ordinary real estate mortgages only, we could have devised means to prevent this inequality; but we unfortunately could not do so because of the necessity of including within the provisions of the bill serial bonds secured by deeds of trust. These, while differing in form, are just as truly mortgages as those made by individuals on real estate, and we were advised that it would have been unconstitutional to apply this law only to real estate mortgages, and to leave the corporate

mortgages so-called subject to assessment for local taxation. The existence also of three systems of mortgage taxation within a period of a little over a year necessarily creates annoyance and perplexities; but, as time wears on, and as people learn to appreciate the advantages of the new law, the measure will become more and more popular.

"Much money will, I think, be attracted to investment in the new mortgages, and the rate of interest will gradually fall to a point below that prevailing before the passage of the Annual Tax Law. This process, however, may be somewhat slow, and our real estate friends must not be disappointed if the advantages are not immediately apparent.

"I thank you again, gentlemen, many times for your kindly appreciation of my work, and for these beautiful gifts, which I shall always cherish among my most precious possessions."

### Three Great Contracts.

**T**HINK of a builder putting into his pocket in one week three contracts aggregating about thirty-five million dollars. As Arthur Brisbane says, Think! The George A. Fuller Company, of which Paul Starrett is president, will build the Pennsylvania Depot, the Hudson Tunnel Company's terminal at Church and Fulton sts, and the North or Second Trinity Building on lower Broadway, together with the addition to the First or South Trinity.

The one from the Pennsylvania is the largest single building contract ever given out in this city. It will amount in value to fifteen or twenty million dollars, and will include everything within the building lines. The general contractor erects everything, including the granite and steel, the first of which comes from the Milford quarries by a contract made months ago, and the steel, upwards of 50,000 tons, will be furnished by the American Bridge Co. McKim, Mead & White are architects of the superstructure, and Westinghouse, Church, Kerr & Co. are the engineers. No sub-contracts have yet been issued by the George A. Fuller Company. Work will begin in August, and if he is not interfered with or held up from one cause or another Mr. Starrett will have it finished in about eighteen months.

For completing the Hudson terminal buildings the general contractor will receive seven million dollars. They will contain each twenty-one and twenty-three stories. Underground there will be five stories. With the superstructure from the hands of the Fuller Company, the O'Rourke Engineering and Contracting Co. will build the foundations. Upwards of 28,000 tons of steel will be required, and for this the American Bridge Co. has the contract. Walls will be built of limestone and brick. There will be two buildings, as Dey st intersects the property, and it cannot be closed. The entire Church st frontage of the two blocks between Cortlandt and Fulton will be occupied.

HUDSON TERMINAL BUILDINGS.

Each building will cover a block front, but the stories below the street level will be connected so that the station platforms will be two blocks long, north and south. The floors above the Cortlandt st level will be used as offices. There will be an underground passageway from the tunnel buildings to the Fulton st station of the Broadway subway. In two years the work is to be finished.

The annex or addition to the First Trinity Building will have a frontage of twenty-eight feet on Broadway, and will be on the north side, the line of Thames st being changed so as to run between the north and the south Trinity buildings. The new work will have a similarity in architectural style and construction to the first edifice, whose elegance made it an instant

success as an investment. Marble and mahogany will together play the same beautiful part as in the other building, which came from the same architect and builder. The contract for the steel has been given to the American Bridge Co., and amounts to 10,000 tons.

The floor area of the present Trinity Building is 166,000 square feet. In the completed twin building there will be 386,873 square feet of additional space, or 552,873 in all. The new structure is to be completed by May 1, 1907, and the contractor feels quite equal to the task of finishing it on time. It will have an exterior wall of Indiana limestone.

The Foundation Company has taken the contract for the foundations of both buildings. Solid concrete, installed by pneumatic caissons carried down to bed rock (an average depth of 80 feet below the curb), will compose the foundations. In the portion of the building just commenced there will be 89 such caissons in the foundations. In the foundations of the portion of the building already completed there are 52 caissons, making a total of 141 for the entire building. The foundations for the Trinity Building as it now stands were also put in by the Foundation Company. When completed the entire structure will consist of two buildings of almost equal dimensions, being separated by Thames st. Temple st will be eliminated from Thames to Cedar st.

### Building Code Revision.

At this week's meeting of the Board of Aldermen the resolution (Introductory No. 88) adopted by the Board January 23, instructing the Committee on Buildings to prepare a Building Code, was rescinded and the following, which has been pending for several months, was adopted instead:

Resolved, That, in pursuance of Section 407 of the Greater New York Charter, the Building Committee of this Board be and is hereby directed to prepare and report to this Board a "Building Code" in amended and revised form, providing therein for all matters concerning, affecting or relating to the construction, alteration and removal of buildings or structures erected, or to be erected, in the City of New York; and it is further

Resolved, That for the purpose of properly preparing said Building Code the said committee be and it is hereby authorized to engage the services of the following experts, each of whom shall be a resident of the City of New York, and shall have been engaged not less than five years in his respective calling, to wit:

Two architects, one structural engineer, one sanitary engineer, one engineer recommended by the Board of Fire Underwriters, two master builders, two mechanics skilled in building trades, and one lawyer, and such clerical assistants as may be necessary.—Max S. Grifenhagen, John J. Farrell, Jacob Bartscherer, J. Hann, Charles Kuntze, Wm. P. Kenneally, Committee on Buildings.

The intention of the committee is now to formally invite building, engineering and architectural bodies to each submit a list of five, from which the committee will select one to be a member of the Board of Revision.

### The Mayor on Realty Values.

A thorough and informing statement of the financial condition of the city was that presented by Mayor McClellan to the Board of Aldermen this week.

The Mayor finds that the total borrowing capacity of the city for the whole year will be \$132,968,368.28, out of which there will be borrowed about \$50,000,000 for general purposes, which is the average for recent years. This would leave approximately \$83,000,000 available for new improvements.

Having a close relation to the ability and intention of the administration to extend those public improvements needed for the development of real estate, the message has been read with deep attention by property owners, and especially the parts in which the matter of improvements is particularly treated; and it is noted that the Mayor gives expression to these views:

"The city since 1903 has tried to assess its real estate for purposes of taxation at market value as the law requires. This has resulted in furnishing substantial borrowing capacity and has been followed by corresponding increases in the debt.

"If the city, in its endeavor to furnish further borrowing capacity to enable it to enter upon extensive and expensive improvements, raises the valuations from year to year beyond a reasonable amount representing normal increases in values, the time must certainly come when the limit will be reached. Full assessment values, with debt incurred to the limit of the margin thereby created, would mean that the city had substantially reached its limit of development.

"If history is to repeat itself and real estate values suffer a heavy decline through overspeculation, a condition indicated by the present activity, the risk run is that the city may be compelled because of its policy of assessing at full values to make material reductions in such values, thereby placing it in the position of having a debt larger than that allowed by the Constitution. It would be several years before such excess could be adjusted. Conservative management is essential if a continuing but gradual development of the city is to be maintained."

### Progress of the Electrification of the West Jersey and Seashore Division of the Pennsylvania Railroad.

Work on the construction of the electrical section of the trunk line railroad between Camden and Atlantic City is progressing rapidly. It will be remembered that the contract for the equipment and construction of this road was let to the General Electric Company last December and that the equipment was to be in operation by July 1, 1906. When the magnitude of the work is considered, the necessity for rapid and systematic construction can be realized.

In the first place the work must not interfere with the regular operating schedule of the present steam trains. As a consequence much track work has been done during certain hours at night. In addition to track work, bonding and pole line construction, and 8,000 kilowatt generating station and seven separate sub-stations are being erected and equipped. Progress on some of the sub-stations has been phenomenal. At

in a bonding terminal by which it is connected to the third rail. A terra cotta cap completely protects the cable entrance of the conduit from the weather.

The bonding on the 140 miles of track is well in hand. More than two-thirds is completed, this part of the work being done under the handicap of the present operating steam trains. In conjunction with the third rail and track bonding, a double transmission line is being run on a single set of poles. The conductors are arranged on two cross-arms with the three respective three-phase wires on each side of the pole in the usual triangle. A ground wire extends along the top of the pole line.

Current for the transmission circuits will be generated by three 2,000 kilowatt Curtis steam turbines at 6,600 volts, and stepped up to 33,000 volts for transmission. At the sub-stations the rotary converters will deliver direct current to the third rail at 650 volts, with few exceptions the over running third rail will be used throughout. In the city of Camden and be-

THE TWIN TRINITY BUILDINGS.

Francis H. Kimball, Architect.

South Camden, Glasboro, Newfield and Reega the sub-stations are well under way, each containing two 750 kilowatt rotary converters with auxiliary apparatus and arrangements for a third complete set. At Mizpah and Clayville the equipment consists of two 500 kilowatt rotary converters with room for a third, while at Atlantic City two 750 kilowatt machines are being installed with an ultimate equipment to consist of two additional 1,000 kilowatt units. The eighth sub-station is at the main generating plant and contains two 750 kilowatt rotary converters.

The progress of the work will be clearly evident to visitors during the Atlantic City conventions. Leaving the Camden terminal on the West Jersey and Seashore Branch, these stations most advanced in construction are at South Camden, Glasboro and Newfield. The third rail construction has progressed rapidly, the over running type of rail being mounted on reconstructed granite insulators. At crossings special jumper cable construction is employed. The cable is laid in bituminized conduit, itself embedded in cement. The cable ends

tween Newfield and Millville the overhead trolley will be installed.

It is entirely probable that when this appears the turbines will be in process of erection at the main station, and that a month from now they will be operating the cars over the new line—the longest section of trunk line steam road up to the present electrified.

A meeting to promote harmony between dual unions in the building trades will be held in Brevoort Hall this evening, and will be attended by delegates of the Associated Building Trades, representing the unions which are not under the arbitration agreement, the United Board of Business Agents, representing the unions under the arbitration agreement, and the Bricklayers' Board of Trade. The animosities have not been serious in their general effect thus far, but there is no reason for any, and in these good times mechanics should be doing nothing but work.

# Burnham Plan Taken for San Francisco

Adopted in Its Entirety—A Chance to Improve the Layout of the City at a Much Smaller Expense Than Contemplated

IT is settled that San Francisco is to be rebuilt after the Burnham plan. Mr. Burnham himself brought the news to Chicago, and in making the announcement he predicted that the work would be well advanced by the end of the year. "The plans," said Mr. Burnham, "were adopted in their entirety. The new city will radiate from the City Hall and that locality, and the San Francisco of the future will be the most beautiful city on the continent, with the possible exception of Washington."

It is not an accident that San Francisco should be the first city after the national capital to have wrought for itself a new and comprehensive plan. Such a plan was demanded long before the earthquake by two conditions—first, by the unique opportunity which the site affords, and, second, by the execrable manner in which this site had been mutilated. The earthquake is the final compelling force.

city. A broad ornamental thoroughfare, the so-called Panhandle, is to connect the Plaza with Golden Gate Park, and is to be extended in the opposite direction straight to the bay. Market st will run from the Union Ferries through the Plaza to and around the Twin Peaks. In the same way Van Ness av is to be continued across the square to another plaza, which would, it is stated, constitute a convenient place for a Union Railway Station.

This general description, although it avoids many essential details, will not, of course, mean very much to a person not familiar with San Francisco; but everybody who knows the city will understand that it constitutes an ingenious and complete means of connecting by broad thoroughfares its several main divisions. One arm of Market st will lead directly to the shops and the banks. The other will aim for the Twin Peaks, which are the finest pair of hills which have been left com-

(Sketched by E. H. Bennett.)

Plan of D. H. Burnham.

In the Burnham plan it is proposed to deal with the inconvenience of the existing rectangular city plan by encircling the city with a boulevard. All streets will lead finally to this boulevard, and access may be had from any one of them to another remote street by following the boulevard until the street sought for opens into it. But in addition to this boulevard, whose utility will be diminished, because it cannot well be made only the outer one of a concentric system, a number of new diagonal streets are proposed, which will serve the double purposes of facilitating communication and of uniting the older sections of the city with the proposed new San Francisco. This new city is grouped around a civic centre, which is situated on the most important existing street in the city, Market st, at its intersection with Van Ness av, a few blocks beyond the present City Hall. Business is pushing out along this street at the present time, and in selecting this location for the core of his new city Mr. Burnham has effected a useful union between his ideal plan and the actual business expansion of the city. The proposed new civic centre will, of course, be the site of a number of the larger public buildings, and from it will radiate the important avenues of travel. At convenient points these avenues again widen into circles, from which other diagonal streets radiate. The proposed civic centre, while it is situated at the intersection of two of the widest and most important of the existing thoroughfares, is essentially a new creation, because most of the avenues pass through it, will have to be cut without much reference to the existing map of the

paratively unutilized by the existing city plan, and will form an artery of travel to an important new section of the city beyond. The Panhandle will run from the Plaza to the one park of which San Francisco can be proud at present, and its continuation beyond the Square will give direct means of communication to a busy manufacturing district. Van Ness av will lead to what is at present the most desirable residential quarter, with which it will be better connected by several new diagonal and irregular streets, while it is proposed that its prolongation across the Square shall connect with a railway station, at which all the trains coming from the south shall enter the city.

Thus the residence, the financial, the shopping and the manufacturing regions are tied together with broad, convenient and imposing thoroughfares, while at the same time the most beautiful parks and the undefiled hills are made much more accessible than they are at present. As the city grows in population these thoroughfares could be tunneled with subways, which would constitute a singularly effective means of inter-communication, and it is safe to say that if such a scheme could be even in some measure realized, San Francisco would be very much the most conveniently planned city in the United States. Its growth, instead of being confined by difficult, expensive and laborious means of inter-communication, would be accelerated by unimpeded freedom of movement. At the same time an opportunity would be provided for the construction of a substantial, enduring, and, perhaps, a handsome city.

# THE REALM OF BUILDING

## Prospective Building.

The following is a list continued of building enterprises for Manhattan that may be expected within the year 1906. For some, plans are now under way; for others, no architects have yet been selected; and in some cases the sites have not been secured. The first name is the owner's; the second, that of the architect; the third, the contractor's; the date is the date of announcement in the Record and Guide.

## World Building to be Enlarged.

**PARK ROW.**—Plans are in progress and figures are now being received by Messrs. Foster, Gade & Graham, 281 4th av, for the erection of a 4-sty fireproof addition in the rear and for interior changes to the World Building, northeast corner of Park row and Frankfort st, of which Joseph Pulitzer is the owner. No contract has yet been awarded.

## Plans for the Singer Building Coming On.

**LIBERTY ST.**—At Ernest Flagg's office, 35 Wall st, it was stated this week that no figures had yet been taken or contracts let for the Singer Building improvements at the northwest corner of Broadway and Liberty st, which, it is estimated, will cost over \$2,000,000. Contractors may expect a call for bids on steel, masonry, etc., in a few weeks. A tower 40 stories in height will be built over the old building, and a new 14-sty annex, 52.10x100.2 ft., will be erected at No. 91-93 Liberty st. (See issue Feb. 24, 1906.)

## Three Houses on a Fifty-Foot Lot.

The picture herewith shows a group of three 5-sty high-class American basement residences erected at Nos. 50, 52 and 54 East 52d st by Charles Brendon & Co., No. 500 5th av, archi-

itects and builders. The houses are interesting, in that they show what can be done with three on a 50-foot front. They are 15, 17 and 18 feet, respectively, and are a distinct improvement over houses of the past which were intended for the market. The fact that Mr. Brendon disposed of them immediately upon completion is the best indication that they were much appreciated by the house-buying public. No. 50 was sold to Mr. George I. Malcolm, No. 52 to Edmund S. Twining and No. 54 to G. Hunter Brown.

## Latest Fifty-First St. Improvement.

**51ST ST.**—C. P. H. Gilbert, architect, Townsend Building, 1123 Broadway, is now making plans and specifications for a new 6-sty fireproof residence to be built at No. 7 West 51st st. The property will have a 25 ft. front, and the materials will be white granite and red brick, with tile roof. Contracts for all portions of the work, including the interior decorations, furniture, etc., are to be given out by the architect. The present brownstone house is now being demolished by the Rheinfrank House Wrecking Co., 620 East 14th st.

## City Investing Company's Building Plans.

**BROADWAY.**—Working drawings will soon be ready for figures on steel, foundations and mason work for the 25-sty office structure which the City Investing Co., Robert E. Dowling, 111 Broadway, president, is to erect on the south side of Cortlandt st, between Broadway and Church st, from plans by Francis H. Kimball, 71 Broadway. This structure, it is

believed, will equal in floor space any building in the downtown district, as it will cover an area of 27,000 sq. ft., a little less than the Broad Exchange Building. It is estimated that about 12,000 tons of steel will be required. At the office of the company on Tuesday it was learned that no contracts had yet been awarded, and as soon as working drawings are completed bids on steel will be taken.

Wages in Building Trades in New York State.

In view of the general activity prevailing, and the promising outlook for the season, it is interesting to note the rates of wages in various cities. As showing the wages paid in the leading cities of New York State and some of the cities of Ohio and Pennsylvania a table is presented in which the wage scale is arranged on an hourly basis and is revised to March 15 of the current year. It was compiled for the New York State Association of

Builders by its enterprising secretary, James M. Carter, and in comparing the figures presented in the table with those prevailing in the corresponding branches of trade a year ago a number of notable changes will be apparent, all in the nature of an advance. This table is sent out in the form of a folder and constitutes a most interesting and valuable contribution to the literature of the building business.

## BUILDING NOTES

Since last fall over a hundred houses have been built at Rockaway, at an average of \$3,500, and are built for all the year around occupancy.

Harris Maran & Son, the well-known east side builders of new law tenements, have removed their office from 6 and 8 East 108th st to the Cockcroft Building, 71 and 73 Nassau st, room 605. This firm have disposed of all their buildings and are in market for lots in tenement districts.

Such encroachments as the Knickerbocker Trust Co.'s at 5th av and 34th st have repeatedly and uniformly been held by the courts to be illegal, and any or all legislative acts permitting such encroachments have been declared unconstitutional. Judge O'Gorman's, this week, is only one more decision to the same effect. And the building stands unchanged.

Advices from Fishkill yesterday afternoon announced the capitulation, without terms, of most of the brickyard strikers in that district, and the whole or partial resumption of work on the yards, including Mr. Hammond's two at Dutchess Junction. The manufacturers have won a long and stubborn fight. A large quantity of new brick is ready for shipment at Fishkill, but very little old brick is left. Prices are unchanged in this market, and no present indications of a moderation. Rather are the authorities now inclined to predict a further advance, as the strike on the yards of the Kingston district continues.

Building operations at the Bureau of Buildings in the Borough of Brooklyn for the week ending May 26 were: Plans for new buildings—Brick, 129; estimated cost, \$1,285,500; frame, 85; estimated cost, \$312,350. Plans filed for alterations, 88. Operations for the corresponding week ending May 27, 1905, were: Plans filed for new buildings—Brick, 101; estimated cost, \$876,100; frame, 96; estimated cost, \$341,350. Plans filed for alterations, 98.

The auction sale of lots at Jamaica South on Decoration Day was a great success. Fully 1,000 people were present and a satisfactory number of the 369 lots offered were sold. The property was offered under the direction of Stokes & Knowles, of Brooklyn. The block offered was a portion of the Jamaica Park South Realty Corporation. Stokes & Knowles had guaranteed a profit of 100 per cent. to the stockholders of the corporation, and this was fully realized at the sale. On and after June 9 there will be public sales every Saturday until the lots are all sold.

—The Ward Brothers, of Huntington, have sold for Henry B. Anderson, of Manhattan, at a price said to be \$1,500 an acre, the tract at East Neck known as the Eckerson brick yard property. It consists of 48 acres, with a fine frontage on Great Gut and Huntington Bay. It rises rather abruptly from the shore and from its heights fine views are had. The purchaser is Milton Le Cleuse, of Manhattan, who will erect a cottage there.

**Important Deal in the Central Bridge Station.**

LIND AV.—W. S. Patten and J. L. Van Sant bought through Walter S. Auld from the Kempt estate the triangle at the junction of Lind and Sedgwick avs. 55x281, on Sedgwick av and 279 ft. on Lind av. The buyers own a strip of 339 ft frontage on these avenues north of the above plot, and now control over 600 ft. on each av. This is one of the proposed sites for a subway station in conjunction with a station for the New York Central Railroad, and this is the last of the holdings of the Kemp estate in this section.

**LEASES.**

A. H. Mathews leased for the Hinton estate to T. Stowe the building 39 West 32d st.

Cuzzo & Gagliano Co. leased for George Modell to a client the northwest corner of Delancey and Sheriff sts, a 7-sty loft and store building for a term of years, at an aggregate rental of \$3000.

**REAL ESTATE NOTES**

Kehoe & White, real estate brokers and agents of 1623 Amsterdam av, have dissolved partnership.

The auction mart is far from being a bargain counter this season. Prices obtained have ruled very fair.

A mid-week holiday makes or breaks real estate trading for a week, depending on the locality. Usually the suburbs get the good end.

McQuay & Co., real estate brokers and auctioneers, with offices in the Smith Building, 3d av, corner 148th st, have opened a branch office at 924-926 Westchester av, near Jackson av.

Henry M. Toch has purchased the Theodore Wolf property at Far Rockaway. The plot, which contains 67 lots, borders on Jarvis lane, adjoins the Ocean Golf Club, and is considered one of the most attractive locations at Far Rockaway.

If the New York Central Railroad had had the enterprise of the Pennsylvania, the West Bronx and the east shore of the Hudson to Tarrytown would have been years ago as much a part of the city as Brooklyn, instead of a sparsely settled region.

James Bleeker & Son had a successful auction at Winfield, L. I., on Decoration Day. Out of 300 lots offered about 200 were sold. Owing to the lateness of the hour the sale was adjourned. Prices obtained were about \$400, \$500 and \$600. The corner of Fish av brought \$1,320.

Only two property owners objecting, the commissioners appointed by the Appellate Court to pass on the routes as laid down by the Rapid Transit Commission, have submitted a favorable report for the 7th and 8th av lines, and the court will confirm the action of the transit board.

Residents of the University Heights and Fordham sections—by a new trolley line opened this week across Washington Bridge and along Aqueduct av to Fordham road—obtain a direct connection with the subway at 181st st station. Three cent transfers will be exchanged with the subway system. This ought to be a decided benefit to real estate in that section.

Mr. W. E. Harmon, of Wood, Harmon & Co., says there is a principle of land values that is not thoroughly understood in

its true significance by the average investor. "A lot of ground is worth just as much as it will pay interest upon, capitalized at the usual rate, when improved by a suitable building. To illustrate, suppose that a house can be erected upon a certain lot at a cost of \$1,000 that will yield an absolutely net income of \$400 a year. Capitalized at 6 per cent., that gives a valuation for the house and lot of \$6,600; deducting the cost of the house, that leaves the valuation for the lot alone at \$2,600." Mr. Harmon considers that with equal transportation facilities, when they come, bringing equal nearness in point of time to the center of activity, there can be ultimately no difference in values in the Bronx, Brooklyn and Queens. Another thing, when transportation facilities are equalized, there will be a quick evening up of land values throughout Brooklyn. The prices in the suburban sections must equal those in built-up sections.

At Mr. Parish's sale of the Dickinson estate lots on Tuesday the attendance was very gratifying. Prices of inside lots ranged from \$900 to \$4,450, the latter figure prevailing for Jerome av lots. The block front on Gun Hill road brought \$11,150. It comprises about five lots. A plot of two lots at the southeast corner of Gun Hill road and DeKalb brought \$13,300. On DeKalb av prices ranged between \$1,225 and \$2,900. On Jerome av at the northeast corner of 208th st a plot 100x100 sold for \$15,100. Twenty inside lots on the east side of Jerome av sold for \$2,800 to \$4,450 each. The southeast corner of Gun Hill road, a plot 100x100, sold for \$20,600. Lots on 208th st realized from \$1,075 to \$1,825 each. The southeast corner of Jerome av and 208th st, a plot of three lots, sold for \$10,300. The northeast corner of Jerome av and Mosholu Parkway brought \$8,600. Inside lots on Mosholu Parkway commanded from \$1,550 to \$2,100 each. The aggregate amount obtained for the 195 lots sold was \$340,875. Because of the lateness of the hour the sale of the remaining 174 lots was adjourned to Monday, June 14, at the same time and place. They comprise the three blocks of lots west of Jerome av indicated on the map of the Dickinson tract.

**Auction of Bay Ridge Lots.**

Jere Johnson, Jr., Co. will sell at auction, Tuesday, June 5, at 12 o'clock noon, in the Brooklyn Real Estate Exchange, 189 Montague st, 190 lots, including eight model 2-family brick houses, situated on 1st, 2d and 3d avs, 67th, Senator and 68th sts, Wakeman and Sedgwick places, in the best and most accessible part of Bay Ridge, directly opposite Owl's Head, or the Bliss property, for the acquisition of which as a public park the city has just started condemnation proceedings, and also opposite Bay Ridge Parkway, or Shore Drive. Cement sidewalks and curbs have been laid on most of the lots at the sellers' expense. 75% on mortgage at 5%. Interest if desired. Property carefully restricted. Titles insured by the Title Guarantee & Trust Co., without expense to purchasers. Illustrated maps from Jere Johnson, Jr., Co., 211 Montague st, Brooklyn; 187 Broadway, New York.

The city authorities announce a tax sale for next November in Brooklyn. Property which has failed to pay taxes and assessments levied in the old city of Brooklyn during the years between 1883 and 1897 will be put up at auction.

CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by  
the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed  
wherein all the right, title and interest of the grantor is conveyed,  
omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor  
only, in which he covenants that he hath not done any act whereby  
the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein,  
although the seller makes no expressed consideration, and thus im-  
pliedly claims to be the owner of it. The street or avenue num-  
bers given in these lists are, in all cases, taken from the insurance  
maps when they are not mentioned in the deeds. The numbers, it  
will occasionally be found, do not correspond with the existing ones,  
owing to there having been no official designation made of them by  
the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second  
date is the date of filing same. When both dates are the same, only  
one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that  
the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that  
the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the  
property, the first figures being for the lot only, and the second fig-  
ures representing both lot and building. Letter P before second fig-  
ure indicates that the property is assessed as in course of con-  
struction.

ANY NEW YORK MAN WHO HAS A BUSINESS MUST TAKE SOME PRIDE IN HIS OFFICE. THEN

his office furniture must be in keeping with his surroundings—must be the best. That does

not mean the highest priced. A moment in my store will prove it.
